Two Million Dollar
Property Loss Is
Caused.

Columbus, O., March 20.—Ohio's death list from Sunday's storm totals 26. Almost 100 persons were injured and property losses may reach \$2,000,000.

The highest number of deaths and greatest amount of damage occurred in the west and northwestern sections of the state and near the Indiana border.

Following is a list of casualties reported late last night:

Genoa—Two killed, 14 injured.

Raab's Corners—Four killed, 20 injured.

Allen and Van Wert Counties—Six killed, 20 injured.

Darke County—Eight killed, 25 injured.

Other Ohio sections—Six killed, 20 injured.

Toledo, March 30.—With their dead and injured believed fully accounted for and the latter receiving all possible attention, Genoa, Raab's Corners and Swanton have begun to emerge from the debris and wreckage caused by the cyclone which struck there late Sunday night. Two were killed and 14 seriously injured at Genoa. At Raab's Corners four met death and more than a score suffered injuries. There were no casualties at Swanton, although more than a score were injured.

Raab's Corner, a hamlet with practically every building leveled, was sorely in need of aid. Genoa with its western section demolished and Swanton, with practically every building marked in some manner by the cyclone, were adjusting themselves rapidly last night.

Members of the American Legion post were guarding the ruins of the 20 or more houses demolished. Work of clearing the debris was begun early this morning, practically the entire man power of the village turning out for the task.

At Raab's Corners an appeal was made for deputy sheriffs to guard the ruins of the homes and the church. The village has no police.

Poor Suffer Greatly.
A fund has been started to build new homes for the victims. The section of the town destroyed was occupied by the poorer classes and many are without means to provide food and shelter it was said.

Six persons in Allen and adjoining counties are known to be dead, more than 20 were injured and hundreds of thousands of dollars damage was caused.

Villages and towns in Allen, Auglaize and Van Wert Counties through which the gale zig-zagged its way, are in ruins. Hundreds of persons are homeless, electric car line service has been suspended and telephone and telegraph communications have been cut off. The only news received from the country districts has been brought out by automobile parties.

The known dead are M. M. Archer, aged 52, farmer, Allen County; George Rader, aged 65, Van Wert County; Mrs. Lucy Rader, aged 62, Van Wert; John Kachelries, aged 6, Moulton; Mary Kachelries, aged 4, Moulton; Joseph Kachelries, aged 4, Moulton.

CHARGES ANARCHISTS TEACHING SCHOOLS

Washington, March 30.—"Bolsheviks, Socialists and anarchists are given teachers' certificates and they are teaching in every state in the Union," Representative Campbell, Republican, Kansas, declared in the house.

"College professors of high and low degree are Socialists, anarchists, enemies of Congress, enemies of the constitution, enemies of this government and they teach it daily in the colleges of the country," he said.

"A saphead Socialist from Harvard appeared recently before a committee of Congress and admitted that he was a Socialist, admitted that he taught Socialism as a teacher in Harvard. They now admit it, and in a short time will be boasting about it."

Mr. Campbell said trustees charged with the duty of employing teachers "should see to it that the Socialists are not employed to poison the youth of the country."

Heated Discussion By
Public Marks
Session.

FARMERS ENTER PLEA

Plan Fails to Come
Up For Action In
Session.

Although a heated debate took place, which seemed to develop into a three-cornered fight between the farmers, railroad men and citizens at large, the City Commissioners again decided to defer action on the question of daylight saving at the recess meeting Monday night.

By motion of Commissioner Fisher the question of whether a vote on the proposition would be taken or not, was put up to the body and was defeated. Commissioner Frazer voting yes on the proposition, with the idea of getting the question settled. Action will likely not be taken until the next regular meeting a week from Thursday at which an ordinance will be introduced and either passed or defeated.

A delegation of citizens favoring the daylight saving was present as well as J. C. Williamson and County Agent Ford. Prince, representing the County Farm Bureau and the farming element on the question. Mr. Williamson led off the discussion when he presented the side of the farmer in the matter. "I don't want to say that we are going to fight this thing but simply that we are opposed to it," said Mr. Williamson. "Let's abide by the government's time."

County Agent Prince took exception to a statement made by Commissioner Charters in which he said that a great many farmers still use sun time. In defense of his statement, Commissioner Charters said that his experience as a jeweler showed that a great portion of the farmers used sun time, and that he had set five watches by that time Monday. "Many have no time," he said, "as they set their watches 30 minutes ahead instead of the correct 24, for convenience sake." The farmer is a man with intellect enough to use the time best suited to himself. As a representative of the people of Xenia I will vote for the measure if the citizens want it and against it if the citizens don't want it.

Secretary L. C. Tingley of the Chamber of Commerce presented letters from the farmers of Dayton, Springfield and Columbus showing that Dayton and Columbus had voted for daylight saving, and that Springfield had taken no action. He also cited the straw vote conducted by the Gazette which gave a majority to the plan and referred to a canvass taken by himself among business men, which showed that the majority interviewed want the hour more daylight.

"I am strongly in favor of the passage of the ordinance," said M. W. Monroe, District Claim Agent for the Pennsylvania. However, I realize everybody is entitled to his own opinion. If I were opposed to the clause and a member of this commission and felt the majority wanted it, I would feel it necessary to disregard my personal feelings and vote for it. I think that the straw vote conducted by the Evening Gazette was honest, it was open to both sides and there is no one here to say that the count was not honest. "Nobody can say the majority is against it but on the contrary the majority is overwhelmingly in favor of it. Does the majority rule in this town? If the majority is not in control we might as well have a Russian Soviet. I believe the welfare of the community would be promoted. The farmer should be the last man in the world to vote against daylight saving. Would you begrudge the working people in these factories an hour more daylight? The farmer will have to abide by changing conditions. As for Mr. Williamson's contention that you can get up an hour earlier in the morning, it can't be done. No man wants a man coming to work for him who is tired out from having worked an hour or two in his garden at home before coming to work."

"It is a question of the opinion of the people. If they don't want it, vote it down, if they do want it, vote for it. If it wasn't for the rule of the people you gentlemen wouldn't be sitting at this table."

Explorer Amundsen on New
Dash for North Pole.

A new dash for the North Pole, led by Roald Amundsen, the famous Norwegian explorer, is under way, according to a dispatch from Christiania. Amundsen is said to be accompanied by only two companions. The explorer has been engaged for some time in fitting out the ship Maude. No news from him is expected until early summer.

OUTLAWING OF SOCIALISTS IS RECOMMENDED

Trial of New York
Assemblymen Is Concluded.

Albany, N. Y., Mar. 30.—Outlawing of the Socialist party from the polls in New York state and ousting of the five suspended socialist members was recommended to the assembly today in the majority report of the judiciary committee.

The report signed by seven of the thirteen members of the committee, including Chairman Louis M. Martin, of Oneida, was based mainly on the conclusion that both the party and its members had been disloyal to the government during the war.

Five members of the committee signed individual minority reports calling for the reseat of the whole five suspended members based principally on the grounds that the assembly possesses no constitutional right to suspend its members. The five members signing the minority reports were assemblymen Pellet and Stitt, of New York, and Blodgett of Schenectady, Republicans; Evans and Block of New York, Democrats.

After claiming the assembly has every constitutional right to exclude and expel members and that the right is fundamental inherent and exclusive, the majority report contains a scathing indictment of the socialist party, not only of the state, but of the nation.

The socialist party is charged with having obstructed every war effort of the federal government with endeavoring to prevent enlistment in the army and navy; with obstructing draft laws and the sale of liberty bonds and with trying to destroy the morale of the people by ghastly pictures of the horrors and consequences of war and with unscrupulous misrepresentations of our participation in the war.

The report declares there is only one inference to be taken from the position of the socialists of the country in obstruction enactment of all military and naval appropriations and war activities.

They would render the country and the government helpless against all enemies so that it may be helpless against them, the enemies of established order.

The majority report in its indictment of the party further claims: "That the party repudiated its allegiance to the government during the war."

The evidence produced at the trial indicates the party was engaged in a systematic effort during the war to foster claims of conscientious objection.

DRAFT DODGER GETS FIVE YEARS IN PEN DESERTION IS CHARGE

New York, March 30.—Grover Cleveland Bergdolf, wealthy young Philadelphia draft evader who for nearly two years played a game of hide-and-seek with government agents during the war, has been found guilty of desertion by a military court martial and sentenced to five years in prison. The verdict of the court was announced today.

In addition to the sentence, Bergdolf was dishonorably discharged from the army.

STORM'S TOLL TOTALS 161 DEAD; 2,000 HURT

FORMER RESIDENT
OF COUNTY AMONG
STORM'S VICTIMS

Russell Fields, former Greene county man was one of the victims of the terrific tornado which swept parts of Ohio Sunday.

Fields was numbered among the dead at Lightsville, a small village near Greenville, which was directly in the path of the tornado and suffered heavily from it. He formerly lived near Jamestown removing to Lightsville several years ago.

Eight are known to be dead in the wake of the tornado at Lightsville and Nashville, while many others are suffering from serious injuries.

DEATH TRIBUNAL USED IN IRELAND BY SINN FEINERS

Members of Party Are
Punished For Bad
Conduct.

SEVEN PUNISHED Secret Meeting Passes Fatal Sentence On Five Members.

London, Mar. 30.—A "death tribunal" has been established by the Sinn Fein in Ireland to punish members for "unworthy conduct" and seven including the late Lord Mayor Thomas McCurtain, of Cork, already have been sentenced to death, according to the Daily Mail and the London Times today.

"Women fanatics are co-operating," said the Daily Mail in its expose.

Lord Mayor McCurtain, Professor Stockley and five other prominent Sinn Fein leaders were expelled from the republican organization and marked for death at a secret meeting of the extremists at Cork on March 19, the Daily Mail says. Lord Mayor McCurtain was shot to death in his home at Cork on the morning of March 21. Professor Stockley was shot at four times. Later an unidentified man was found, shot to death near New Castle west. This victim, according to the Daily Mail, was not a spy, but refused to obey Sinn Fein orders.

It is believed, says the Daily Mail, that the death sentence resulted from information secured when a mail wagon, bound for Dublin castle, was held up in the streets of Dublin on March 3 and correspondence addressed to the lord lieutenant was seized.

It is alleged by the Daily Mail that Lord Mayor McCurtain asked the police to arrest him for his own protection but soldiers who were sent to make the arrest, arrived too late.

According to the Times both Lord Mayor McCurtain and Professor Stockley were present at the secret meeting in Cork when the degree of expulsion and death was passed. Professor Stockley was shot at immediately after leaving the meeting. There is a discrepancy between the Daily Mail and Times as to the date of the secret meeting. While the former newspaper says it was held on the night of March 12, the latter said it was held two nights earlier.

CHICAGO STOCK YARDS MAY BE SHUT DOWN ACCOUNT OF STRIKE

Chicago, March 30.—The prospects of a complete shutdown of Chicago's stock yards, thus throwing 50,000 persons out of employment and seriously affecting the meat supply of Chicago and other middlewestern cities, became a near-certainty today, following the placing into effect of a freight embargo strike of livestock handlers.

Yard officials announced that 10,000 employees already are out of work. Although hundreds of car loads of livestock are held up on the city's outskirts, or on railroad sidings between Chicago and Omaha, the receipts at the yards today are almost negligible as compared with the usual amount. Because of the strike, the stock could not be handled if it were brought to the yards.

"If the strike continues there will be nothing left for us to do but shut down," said an official of Armour and Company. "Every plant in the yards may have to close before the end of the week."

GRANGE TO HOLD MEETING WEDNESDAY

The quarterly meeting of Greene County Pomona Grange, which will be held at the J. O. U. A. M. Hall in this city Wednesday will be of unusual interest, owing to the presence of Harry Caton, state grange lecturer. The meeting will open at 9:30 a. m. when a masters' and lecturers conference will be conducted by Mr. Caton. At noon luncheon will be served, the people attending bringing box lunches. In the afternoon, a program will be rendered, and an address given by Mr. Caton.

PROPERTY LOSS ESTIMATES REACH THIRTY MILLIONS

Georgia Is the Heaviest
Sufferer With 38
Killed.

SCENES PATHETIC

Relief Measure Taken In
Districts Devastated By
Storm.

Chicago, March 30.—Residents of the tornado stricken areas in eight central west and southern states prepared today to take inventory of their losses, rebuild their homes and bury their dead.

A recapitulation of the storm king's life toll early today shows that 161 persons were killed and nearly 2,000 injured. The newest death list by states is as follows:

Illinois—including Chicago district—30.

Indiana—36.

Ohio—26.

Georgia—38.

Alabama—17.

Michigan—12.

Missouri—1.

Wisconsin—1.

Total 161.

It is estimated that the property loss caused by tornadoes will be nearly \$30,000,000 with about \$6,000,000 of that amount in Illinois.

The scenes in the wrecked area was pathetic today.

Many persons continued to linger near the tangled, splintered wrecks of what once were their homes—all they had in the world—refusing to go to temporary shelters provided for them.

Others gathered in morgues and wept beside their dead.

Relief measures are practically completed in most districts. Homes not affected by the storm were thrown open to them everywhere and the red cross and other relief agencies provided plenty of food. Plans were made to assist in the rebuilding of homes.

FORMAL DENIAL MADE OF CAPTURE OF VILNA FROM POLES

London, March 30.—Formal denial that the Russian bolsheviks had captured Vilna from the Poles or that disorders have broken out in Poland, was authorized by the Polish legation today, in a statement to the diplomatic correspondent of the Daily Telegraph. The correspondent in commenting upon developments in the east expressed belief that the bolshevik offensive will cease in view of Poland's reply to the bolshevik peace offer setting April 10 as the date for opening negotiations. It is pointed out that the financial demands of Poland are justified in view of their need for the restoration of Poland prior to the German evacuation of the country, it was said.

NEW AGREEMENT ON COAL DISPUTE IS BEING DRAFTED

New York, March 30.—A new working contract effective in every soft coal mine in America is being drawn up today on the basis of a 27 per cent increase in wages. This compromise agreement was reached at a meeting of operators and the bituminous miners committee and announced by John L. Lewis, president of the United Mine Workers.

The twenty-seven per cent increase was recommended by President Wilson's bituminous coal commission and becomes effective April 1. The compromise conferees are meeting now to determine the remaining articles of the working agreement.

Telegrams which cost \$4,500, were dispatched early today to every bituminous district in the country to forestall any attempt by agitators to call a soft coal strike.

CHARGES ANARCHISTS
TEACHING SCHOOLS

Washington, March 30.—"Bolshe-
viki, Socialists and anarchists are
given teachers' certificates and they
are teaching in every state in the
Union," Representative Campbell, Re-
publican, Kansas, declared in the
house.

"College professors of high and
low degree are Socialists, anarchists,
enemies of Congress, enemies of the
constitution, enemies of this govern-
ment and they teach it daily in the
colleges of the country," he said.

"A saphead Socialist from Harvard

of Congress and admitted that he
was a Socialist, admitted that he
taught Socialism as a teacher in Har-
vard. They now admit it, and in a
short time will be boasting about it."

Mr. Campbell said trustees charg-
ed with the duty of employing teach-
ers "should see to it that the Social-
ists are not employed to poison the
youth of the country."

TRAIN SETS NEW
RECORD IN SPEED
RUN OF 225 MILES

Windsor, Ont., Mar. 30.—What is
believed to be the fastest distance
runs ever made on an American rail-
road was registered yesterday when
a special train composed of an en-
gine and two cars covered the 225
miles between Windsor and Buffalo,
N. Y., in 184 minutes. The time at
108 miles from Windsor to St.
Thomas was 89 minutes which beats
all previous records, while the 117
miles between St. Thomas and Buf-
falo was covered in 95 minutes. The
trip was made over the New York
Central, Canadian division and no
stop was made on the way except
at St. Thomas where engines were
changed. President A. H. Smith of
the New York Central lines and
Henry Shearer, general manager of
the Michigan Central railroad were
passengers on the flight across the
country.

FRANCE INTERFERES

Germans Think U. S.
and England Will Not
Lend Aid.

Berlin, March 30.—(By wireless to
New York)—Germany is determined
to invade the Ruhr neutral zone de-
spite French protests, according to a
statement made today by Minister of
Defense Gessler. "Up to the last
minute we have striven to bring
about a peaceful understanding with
the French," declared the minister.
"No German government would ever
agree to the French claim to occupy
Frankfurt, Darmstadt and other towns
for the consideration that Germany
be allowed to restore order in her
own country."

Washington, Mar. 30.—The attitude
of the American government on the
occupation of the Ruhr valley by
German military forces has not been
changed, it was announced by the
state department today. This gov-
ernment has no objection to German
government troops entering the Ruhr
district temporarily.

Berlin, March 30.—The German
Spartacists in the Ruhr district have
rejected President Ebert's disarm-
ament ultimatum and declare they will
fight the government troops to the
bitter end.

France is still negotiating for the
occupation of Frankfurt and Darmstadt
as a guarantee that government troops
sent into the Ruhr district will be with-
drawn after the reds are put down.
The cabinet is divided upon the ques-
tion.

Feeling is strong here that the United
States and Great Britain will not
support France's occupational aims.
Minister of Defense Gessler announced
in the national assembly that all
of the reactionary officers of the army
are being dismissed and that the gov-
ernment's program is to make the
army the instrument of democracy.
Herr Gessler's supporters declared
this program as the death knell of
militarism in Germany.

In response to the demands of Herr
Ligien of the laborites, for punish-
ment of the supporters of Von Kapp,
minister of Justice Blunck announced
that 10,000 marks reward will be
paid for the arrest of the leaders of
the militarist coup.

The communist newspaper Arbeiter
commenting up a report from Hagen
that workers in the Ruhr towns of
Ludenscheid, Remscheid and Iserlohn
had voted against joining the com-
munist and offered to fight against
the red army, said today: "There is
no red army. The government must
recognize the Ruhr workers' army,
which is made up of workers of all po-
litical parties."

HOUSE CONTINUES ITS
EFFORTS TO GET PEACE
FIRMLY ESTABLISHED

Washington, March 30.—Efforts
to pass a resolution declaring the
state of war with Germany at an
end continued in the house today, de-
spite the message coming from the
White House that the president is
opposed to any such step.

A test of the president's control
over the Democratic members of the
house is expected when the question
of a peace resolution gets on the
floor. The opposition of the presi-
dent will delay passage of such a
resolution. It is admitted, but it is
doubtful whether it will defeat it,
for there is every likelihood of a num-
ber of Democratic congressmen vot-
ing in favor of the resolution.

crowds which were clamoring for a
republic in Denmark, said an ex-
change Telegraph dispatch from the
Danish capital this afternoon.

The public square surrounding the
Danish king's palace was guarded by
soldiers with drawn bayonets who
held back the crowds that moved up

"Long live the republic."

INTO GERMANY

Paris, Mar. 30.—France has not
ordered her troops to advance im-
mediately into Germany and occupy
Darmstadt, Frankfurt and Hanau,
declared Premier Millerand in an in-
terview printed in the Matin today.
The premier was quoted as saying
that the order would be given with or
without the consent of the other al-
lies if the German government sends
into the Ruhr district troops in ex-
cess of the number fixed by Gen-
Foch in his note of August 19, 1919.

STORY OF BIG SPREAD
OF I. W. W. IN PARTS
OF COUNTRY IS TOLD

Washington, March 30.—The story
of the growth and spread of the I.
W. W. in the northwest was told
today by the immigration committee
by inspectors of the immigration ser-
vices brought from Seattle, Wash-
ington and Portland, Ore.

These inspectors made the investi-
gations of the activities of this orga-
nization following strikes, riots and
crimes alleged to have been fomented
and perpetuated by members of the
I. W. W. and acted as escorts across
the country for the aliens who were
arrested later for complicity in unlaw-
ful acts and ordered to be deported
from the United States.

They presented detailed reports of
the results of their investigations,
showing the propaganda of the I. W.
W., its teachings for the overthrow
of government by force if other
means would not bring this about and
their arguments against individual
property rights. In running down the
evidence against these plotters the

Heated Discussion By
Public Marks
Session.

FARMERS ENTER PLEA

Plan Fails to Come
Up For Action In
Session.

Although a heated debate took
place, which seemed to develop into
a three cornered fight between the
farmers, railroad men and citizens at
large, the City Commissioners again
decided to defer action on the ques-
tion of daylight saving at the recess
meeting Monday night.

By motion of Commissioner Fisher
the question of whether a vote on the
proposition would be taken or not,
was put up to the body and was de-
feated. Commissioner Frazer vot-
ing yes on the proposition, with the
idea of getting the question settled.
Action will likely not be taken until
the next regular meeting week from
Thursday at which an ordinance will
be introduced and either passed or
defeated.

A delegation of citizens favoring
the daylight saving was present as
well as J. C. Williamson and County
Agent Ford Prince, representing the
County Farm Bureau and the farm-
ing element on the question. Mr.
Williamson led off the discussion
when he presented the side of the
farmer in the matter. "I don't
want to say that we are going to
fight this thing, but simply that we
are opposed to it," said Mr. William-
son. "Let's abide by the government's

County Agent Prince took excep-
tion to a statement made by Com-
missioner Charters in which he said
that a great many farmers still use
sun time. In defense of his state-
ment, Commissioner Charters said
that his experience as a jeweler
showed that a great portion of the
farmers used sun time, and that he
had set five watches by that time

said, "as they set their watches 30
minutes ahead instead of the correct

er is a man with intellect enough to

As a representative of the people of
Xenia I will vote for the measure if
the citizens want it and against it if
the citizens don't want it.

Secretary L. C. Tingle of the
Chamber of Commerce presented let-
ters from the Mayors of Dayton,
Springfield and Columbus showing
that Dayton and Columbus had vot-
ed for daylight saving, and that
Springfield had taken no action. He
also cited the straw vote conducted
by the Gazette which gave a majority
to the plan and referred to a canvass
taken by himself among business
men, which showed that the majority
interviewed want the hour more day-
light.

"I am strongly in favor of the
passage of the ordinance," said Mr.
W. Monroe, District Claim Agent for
the Pennsylvania. However, I real-
ize everybody is entitled to his own
opinion. If I were opposed to the
clause and a member of this commis-
sion and felt the majority wanted it,
I would feel it necessary to disre-
gard my personal feelings and vote
for it. I think that the straw vote
conducted by the Evening Gazette
was honest, it was open to
both sides and there is no one here
to say that the count was not honest.

"Nobody can say the majority is
against it, but on the contrary the
majority is overwhelmingly in favor
of it. Does the majority rule in this
town? If the majority is not in con-
trol we might as well have a Rus-
sian Soviet. I believe the welfare of
the community would be promoted.
The farmer should be the last man
in the world to vote against daylight
saving. Would you begrudge the
working people in these factories an
hour more daylight? The farmer
will have to abide by changing con-
ditions. As for Mr. Williamson's
statement that you can get up an air
earlier in the morning, it can't be
done. No man wants a man coming
to work for him who is tired out from
having worked an hour or two in his
garden at home before coming to
work."

"It is a question of the opinion of
the people. If they don't want it,
vote it down. If they do want it, vote

the people you gentlemen wouldn't be
sitting at this table."

ed until early summer.

OUTLAWING OF
SOCIALISTS IS
RECOMMENDED

Trial of New York
Assemblymen Is Con-
cluded.

Albany, N. Y., Mar. 30.—Outlawing
of the Socialist party from the polls in
New York state and ousting of the
five suspended socialist members was
recommended to the assembly today
in the majority report of the judiciary
committee.

The report signed by seven of the
thirteen members of the committee,
including Chairman Louis M. Martin,
of Oneida, was based mainly on the
conclusion that both the party and its
members had been disloyal to the
government during the war.

Five members of the committee
signed individual minority reports
calling for the reseating of the whole
five suspended members based prin-
cipally on the ground that the assem-
bly possesses no constitutional right to
suspend its members. The five mem-
bers signing the minority reports
were assemblymen Pellet and Stitt,
of New York and Blodgett of Schne-
sady, Republicans; Evans and Block
of New York, Democrats.

After claiming the assembly has
every constitutional right to exclude
and expel members and that the
right is fundamental inherent and
exclusive, the majority report con-
tains a scathing indictment of the
socialist party, not only of the state,
but of the nation.

The socialist party is charged with
having obstructed every war effort
of the federal government with en-
deavoring to prevent enlistment in
the army and navy; with obstructing
draft laws and the sale of liberty
bonds and with trying to destroy the
morale of the people "by ghastly pic-
tures of the horrors and consequences
of war and with unscrupulous misrep-
resentations of our participation in the war."

The report declares there is only
one inference to be taken from the
position of the socialists of the country
in obstruction enactment of all
military and naval appropriations
and war activities.

They would render the country and
the government helpless against all
enemies so that it may be helpless
against them, the enemies of estab-
lished order.

The majority report in its indict-
ment of the party further claims:
That the party repudiated its allegi-
ance to the government during the
war.

The evidence produced at the trial
indicates the party was engaged in a
systematic effort during the war to
foster claims of conscientious objec-
tion.

DRAFT DODGER GETS
FIVE YEARS IN PEN;
DESERTION IS CHARGE

New York, March 30.—Grover
Cleveland Bergdoll, wealthy
young Philadelphia draft evader
who for nearly two years played
a game of hide-and-seek with
government agents during the
war, has been found guilty of
desertion by a military court
martial and sentenced to five
years in prison. The verdict of
the court was announced today.

In addition to the sentence,
Bergdoll was dishonorably dis-
charged from the army.

FORMER RESIDENT
OF COUNTY AMONG
STORM'S VICTIMS

Russell Fields, former Greene
county man was one of the victims of
the terrific tornado which swept parts
of Ohio Sunday.

Fields was numbered among the
dead at Lightsville, a small village
near Greenville, which was directly
in the path of the tornado and suf-
fered heavily from it. He formerly
lived near Jamestown removing to
Lightsville several years ago.

Eight are known to be dead in the
wake of the tornado at Lightsville
and Nashville, while many others are
suffering from serious injuries.

DEATH TRIBUNAL
USED IN IRELAND
BY SINN FEINERS

Members of Party Are
Punished For Bad
Conduct.

Secret Meeting Passes
Fatal Sentence On Five
Members.

London, Mar. 30.—A "death tribu-
nal" has been established by the Sinn
Fein in Ireland to punish members
for "unworthy conduct" and seven
including the late Lord Mayor
Thomas McCurtain, of Cork, already
have been sentenced to death, accord-
ing to the Daily Mail and the Lon-
don Times today.

"Women fanatics are co-operat-
ing," said the Daily Mail in its ex-
pose.

Lord Mayor McCurtain, Professor
Stockley and five other prominent
Sinn Fein leaders were expelled from
the republican organization and mark-
ed for death at a secret meeting of
the extremists at Cork on March 19
the Daily Mail says. Lord Mayor
McCurtain was shot to death in his
home at Cork on the morning of
March 21. Professor Stockley was
shot at four times. Later an un-
identified man was found, shot to
death near New Castle west. This
victim, according to the Daily Mail,
was not a spy, but refused to obey
Sinn Fein orders.

It is believed, says the Daily Mail,
that the death sentence resulted
from information secured when a
mail wagon, bound for Dublin castle,
was held up in the streets of Dublin
on March 3 and correspondence ad-
dressed to the lord lieutenant was
seized.

It is alleged by the Daily Mail that
Lord Mayor McCurtain asked the
police to arrest him for his own pro-
tection but soldiers who were sent to
make the arrest, arrived too late.

According to the Times both Lord
Mayor McCurtain and Professor
Stockley were present at the secret
meeting in Cork when the degree of
expulsion and death was passed.
Professor Stockley was shot at im-
mediately after leaving the meeting.
There is a discrepancy between the
Daily Mail and Times as to the date
of the secret meeting. While the
former newspaper says it was held
on the night of March 19, the latter
said it was held two nights earlier.

CHICAGO STOCK YARDS
MAY BE SHUT DOWN
ACCOUNT OF STRIKE

Chicago, March 30.—The pros-
pects of a complete shutdown of
Chicago's stock yards, thus throw-
ing 50,000 persons out of employ-
ment and seriously affecting the
meat supply of Chicago and other
middlewestern cities, became a near-
certainty today, following the plac-
ing into effect of a freight embargo
strike of livestock handlers.

Yard officials announced that 10-
000 employees already are out of
work. Although hundreds of car
loads of livestock are held up on the
city's outskirts, or on railroad sid-
ings between Chicago and Omaha,
the receipts at the yards today are
almost negligible as compared with
the usual amount. Because of the
strike, the stock could not be hand-
led if it were brought to the yards.

"If the strike continues there will
be nothing left for us to do but shut
down," said an official of Armour
and Company. "Every plant in the
yards may have to close before the
end of the week."

GRANGE TO HOLD
MEETING WEDNESDAY

The quarterly meeting of Greene
County Pomona Grange, which will
be held at the J. O. U. A. M. Hall in
this city Wednesday will be of unusual
interest, owing to the presence of
Harry Caton, state grange lecturer.
The meeting will open at 9:30 a. m.
when a masters' and lecturers con-
ference will be conducted by Mr. Caton.
At noon luncheon will be served, the
people attending bringing box lunches.
In the afternoon, a program will be
rendered, and an address given by Mr.
Caton.

PROPERTY LOSS
ESTIMATES REACH
THIRTY MILLIONS

Georgia Is the Heaviest
Sufferer With 38
Killed.

SCENES PATHETIC
Relief Measure Taken In
Districts Devastated By
Storm.

Chicago, March 30.—Residents of
the tornado stricken areas in eight
central west and southern states
prepared today to take inventory of
their losses, rebuild their homes and
bury their dead.

A recapitulation of the storm king's
life toll early today shows that 161
persons were killed and nearly 2,000
injured. The newest death list by
states is as follows:
Illinois, (including Chicago dis-
trict)—30.
Indiana—36.
Ohio—26.
Georgia—38.
Alabama—17.
Michigan—12.
Missouri—1.
Wisconsin—1.
Total 161.

It is estimated that the property
lost caused by tornadoes will be
nearly \$30,000,000 with about \$6,000-
000 of that amount in Illinois.

The scenes in the wrecked area
was pathetic today.

Many persons continued to linger
near the tangled, splintered wrecks
of what once were their homes—
all they had in the world—refusing to go
to temporary shelters provided for
them.

Others gathered in morgues and
wept beside their dead.

Relief measures are practically
completed in most districts. Homes
not affected by the storm were
thrown open to them everywhere and
the red cross and other relief agencies
provided plenty of food. Plans were
made to assist in the rebuilding of
homes.

FORMAL DENIAL
MADE OF CAPTURE
OF VILNA FROM POLES

London, March 30.—Formal deni-
al that the Russian bolsheviks have
captured Vilna from the Poles, or
that disorders have broken out in
Poland, was authorized by the Polish
legation today, in a statement to the
diplomatic correspondent of the Dai-
ly Telegraph. The correspondent in
commenting upon developments in
the east expressed belief that the bol-
shevik offensive will cease in view of
Poland's reply to the bolshevik plea
for setting April 10 as the date for
opening negotiations. It is pointed
out that the financial demands of Po-
land are justified in view of their
need for the restoration of Poland.
Stocks of bullion were removed from
Poland prior to the German's evacua-
tion of the country, it was said.

NEW AGREEMENT
ON COAL DISPUTE
IS BEING DRAFTED

New York, March 30.—A new work-
ing contract effective in every soft
coal mine in America is being drawn
up today on the basis of a 27 per cent
increase in wages. This compromise
agreement was reached at a meeting
of operators and the bituminous min-
ers committee and announced by
John L. Lewis, president of the United
Mine Workers.

The twenty seven per cent increase
was recommended by President Wil-
son's bituminous coal commission
and becomes effective April 1. The
compromise conference met today
now to determine the remaining ar-
ticles of the working agreement.

Telegrams which cost \$4,500, were
dispatched early today to every
bituminous district in the country to
forestall any attempt by agitators to
call a soft coal strike.

BEDFAST EVERY WINTER; STOMACH TROUBLE GONE

Mrs. Mershon Found Speedy Relief After 18 Years' Suffering.

"I had suffered from stomach trouble for 18 years, and had spent hundreds of dollars doctoring. Every winter I was bedfast most of the time. I commenced taking Milks Emulsion last fall, and before I had taken six bottles, my stomach trouble disappeared, and I have had no return of it since. This is the first winter in 18 years that I have not been bedfast. I also give Milks Emulsion to the children for cough, with splendid results."—Mrs. W. G. Mershon, Brazil, Ind. Thousands of people who have suffered for years from stomach and bowel troubles, as Mrs. Mershon did, have found the same wonderful relief and lasting benefit from Milks Emulsion. Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. A builder of flesh and strength, Milks Emulsion is strongly recommended to those whose sickness has weakened, and is a powerful aid in resisting and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream.

No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. New York, March 30.—Aroused by complaints from the commercial organizations of southern states of immense losses by planters and shippers, the department of labor today intervened in the longshoremen's strike which has for days paralyzed coastwise shipping from Maine to Texas. It was announced that representatives of the international longshoremen's union and their employers will meet in Washington on Friday morning to attempt to settle their differences under the direction of the department.

BEDFAST EVERY WINTER; STOMACH TROUBLE GONE

Mrs. Mershon Found Speedy Relief After 18 Years Suffering.

"I had suffered from stomach trouble for 18 years, and had spent hundreds of dollars doctoring. Every winter I was bed fast most of the time. I commenced taking Milk's Emulsion last fall, and before I had taken six bottles, my stomach trouble disappeared and I have had no return of it since. This is the first winter in 18 years that I have not been bedfast. I also give Milk's Emulsion to the children for cough, with splendid results."—Mrs. W. G. Mershon, Brazil, Ind.

Thousands of people who have suffered for years from stomach and bowel troubles, as Mrs. Mershon did, have found the same wonderful relief and lasting benefits from Milk's Emulsion.

Milk's Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. It is a builder of flesh and strength. Milk's Emulsion is strongly recommended to those whose sickness has weakened, and is a powerful aid in resisting and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream.

No matter how severe your case, you are urged to try Milk's Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milk's Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.

GENERAL KEIFER WILL SPEAK AT BANQUET OF C. OF C. IN XENIA

Much interest is being manifested among members of the Chamber of Commerce in the address of Major General J. Warren Keifer, who will speak before that organization at the banquet to be held at 6:30 o'clock Tuesday evening.

General Keifer, though 84 years of age, is still active and still practices the law. Born near Springfield, he still lives in that city.

He rose to the rank of Brevet Major General in the Civil conflict in this country and was made Major General when the war broke out with Spain, having charge of practically all of the volunteer army raised at that time. It is remarkable of him that he was present at the surrender of Lee and was also a witness in the galleries of the Reichstag when Germany precipitated the great war. He was a member of the Hague conference and of the Inter-Parliamentary Union.

General Keifer will speak Tuesday evening on a subject of interest to every one dealing with personal reminiscence of great men he has known. The banquet will be served at 6:30 by Chef Kany.

NEW HOPE TAKEN BY SUFFRAGISTS IN DELAWARE MATTER

Washington, Mar. 30.—Suffrage leaders here today took new hope and expressed "optimism" over the situation in Delaware where the state legislature is meeting to act upon ratification of the suffrage amendment.

Miss Alice Paul, leader of the national woman's party, in a telephone message from Dover, Delaware, today declared:

"Great accession of strength during the recess of the legislature makes us feel that the outlook now, brighter."

It was announced here that the governor of Vermont has agreed to call a special session of the legislature of that state if the attorney general instructs him as to the constitutionality of such a step.

FIRE DEPARTMENT USING NEW PUMP

Pressure test conducted by fire department of Xenia throws stream of water over court house tower.

It was fortunate that the City Commission had foresight enough to provide the Xenia Fire Department with the best of equipment, because the local fire ladders have been busy as a one arm fiddler since the first of the year.

At that the firemen are finding things a little easier for the motor pieces, enable them to get to a fire so quickly that in the majority of cases it has gained little headway and can be extinguished with the chemicals without running a line of water.

The year started out with a flock of fires on New Year's day, and true to tradition, has been keeping up the pace ever since. Two runs last Sunday and two more Monday has kept the department busy within the last few days.

There are many who believe that the local fire department is one of the best equipped, because of the size of the state, and the above picture, showing a pressure test recently conducted on the Court House lawn seems to bear out this statement.

The water was thrown in two streams as high as the Court House tower by the use of the engine pump on the new White truck and is proof that the department is equipped in battle with a fire in any building in Xenia.

ALUMNI "X" ASSN. ELECTS TEMPORARY OFFICERS MONDAY

James D. Adair, of the Class of 1905, former star football and basketball player, was elected temporary president of the newly organized Central High School Alumni "X" Association at the meeting held in the Chamber of Commerce, Monday evening.

Dr. Clarence Denser, who graduated with the Class of 1912 and who starred in football, basketball and baseball, and afterwards won the all-state appointment for halfback during his career at the University of Cincinnati, was elected temporary secretary at the meeting. President Adair will appoint a committee to draw up the bylaws and constitution.

The object of the "X" association is to continue the life of the school association of that name after graduation, to assist in the promotion of athletics at the local school, to raise the plane of appreciation for the letter "X," and to encourage the athletic team, put out by the local school in every way possible. The association hopes to enlarge into a permanent club where men with a common athletic footing at the local school can find communion.

To promote the organization a social meeting will be held sometime soon, to which all letter men of the local school, who have graduated and those who graduated before the letter was given, will be invited.

Represented at the meeting Monday night were the classes of 1905, '08, '11, '12, '13, '15, '18 and '19.

GIVING OUT

The Struggle Discourages Many a Citizen of Xenia.

Around all day with an aching back. Can't rest at night. Enough to make any one "give out."

Doan's Kidney Pills are helping thousands. They are for kidney backache. And other kidney ills. Ask your neighbor.

Here is Xenia proof of their merit: Mrs. David Pohl, 751 West Second street, says, "Doan's Kidney Pills cured me of kidney trouble and I am glad to recommend them. I suffered with lameness in my back quite often, but the most trouble came from bladder disorder and I was annoyed by the way my kidneys acted. When I got up, I felt tired and drowsy and it seemed as if I never could get enough rest. Doan's Kidney Pills, which I got at Donges' Drug Store, helped me right away and two boxes cured me entirely. I haven't been bothered that way at all since."

AUTOISTS CROWD STORE TO PROCURE LICENSE TAGS

A long row of automobiles on South Detroit street early Tuesday morning testified to the fact that the auto licenses had arrived at the Xenia Shoe and Rubber store, official distributors.

The blanks were received from the state department Tuesday morning and the licenses were issued as quickly as could be handled. The store was crowded all day with carowners seeking to comply with the new automobile law before the final day, April 1.

During these few days while the rush is heavy the distributors will keep the store open every night until 9 o'clock for the convenience of the belated license seekers.

The new tax of auto-trucks is found to be especially heavy and in many cases all the way from \$40 to \$70 a piece are required as license fees for the biggest trucks.

The association hopes to enlarge into a permanent club where men with a common athletic footing at the local school can find communion.

To promote the organization a social meeting will be held sometime soon, to which all letter men of the local school, who have graduated and those who graduated before the letter was given, will be invited.

Represented at the meeting Monday night were the classes of 1905, '08, '11, '12, '13, '15, '18 and '19.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work people afflicted with bad breath find quick relief through taking them.

Dr. Edwards' Olive Tablets are a vegetable compound mixed with olive oil. They act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood, and purifying the entire system. They do that which calomel does, without any of the bad after effects. Take one or two every night for a week and note the pleasing effect. 10c and 25c a box.

GIVING OUT

The Struggle Discourages Many a Citizen of Xenia.

Around all day with an aching back, Can't rest at night; Enough to make any one "give out."

Doan's Kidney Pills are helping thousands.

They are for kidney backache, And other kidney ills. Ask your neighbor.

Here is Xenia proof of their merit: Mrs. David Pohl, 751 West Second street, says, "Doan's Kidney Pills cured me of kidney trouble and I am glad to recommend them. I suffered with lameness in my back quite often, but the most trouble came from bladder disorder and I was annoyed by the way my kidneys acted. When I got up, I felt tired and drowsy and it seemed as if I never could get enough rest. Doan's Kidney Pills, which I got at Donge's Drug Store, helped me right away and two boxes cured me entirely. I haven't been bothered that way at all since."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Pohl had. Foster-McMillan Co., Buffalo, N. Y.

AUTOISTS CROWD STORE TO PROCURE LICENSE TAGS

A long row of automobiles on South Detroit street early Tuesday morning testified to the fact that the auto licenses had arrived at the Xenia Shoe and Rubber store, official distributors.

The blanks were received from the state department Tuesday morning and the licenses were issued as quickly as could be handled. The store was crowded all day with carowners seeking to comply with the new automobile law before the final day, April 1.

During these few days while the rush is heavy the distributors will keep the store open every night until 9 o'clock for the convenience of the belated license seekers.

The new tax of auto-trucks is found to be especially heavy and in many cases all the way from \$40 to \$70 a piece are required as license fees for the biggest trucks.

an eight hour day," said Mr. Williamson in reply. "I think that the farmer aims to pay a good living wage. I think the city man can get up an hour earlier in the morning if he wants more daylight. It is simply not a question of daylight saving but a change of time. The farmer would have to quit at three o'clock in the afternoon to get in town before the stores closed."

Commissioner Whalen in a brief talk questioned the honesty of the Gazette straw vote, pointing out that the vote so far as the commission was concerned was not conclusive. In reply to this E. S. Myers of the Gazette, stated that the ballots had been turned over to the commission for their canvas and that each ballot bore the name and address of the voter.

SURE SIGNS OF EYE STRAIN

Headache, Vertigo, Watering of the Eye, Glueing together of the Eyelid on awakening in the morning.

The headache is often replaced by an inflammation of the eyelids, especially in young and healthy persons who also have a little conjunctivitis with a feeling of tension or fullness in the eyes which may become real pain of a dull aching character, the eyeballs being very tender on pressure.

Sometimes there are vertigo and sickness, with dyspepsia, palpitation, and even difficulty in breathing. Sleeplessness is a very frequent symptom to the excessive flow of blood to the brain and in part to the low tone of the whole nervous system.

If you have any of the above symptoms, call on Mrs. Lingerfield for examination of eye, while she is in Xenia, Friday, March 19.

Commissioner DeHaven expressed the opinion that there was no hurry in voting for the proposition. City Solicitor J. A. "It would be as valid as standard time," said Commissioner Charters. "You can't make people carry standard time either."

DAYLIGHT SAVING OR NOT?

Although a motion to consider the daylight saving plan for Xenia was voted down at the meeting of the city commission Monday night, the project is far from being a dead issue and will undoubtedly be brought before that body for definite consideration within the next two weeks.

The situation has apparently resolved itself down to a question of just what is the will of the people of Xenia, in the matter, and whether they will get their wishes, granting their desires are definitely known.

The former, is apparently still an open question in the minds of the commission, despite the fact that the Gazette last week conducted a straw vote in an attempt to learn just what the people desired, which resulted in an overwhelming majority in favor of the daylight saving plan. Since this vote was carried out in all parts of Xenia, and since every one was urged to register an opinion either way, it is logical to suppose that the same proportion would have held true had everyone voted. This then must certainly be conclusive proof that the people of Xenia want daylight saving.

With this then as a basis, the new plan must surely be passed if the will of the people is taken into consideration, which has been the policy here in the past and will do doubt be in the future.

ALLIES PROCEED IN ENFORCING THE TREATY WITHOUT AMERICA.

Lloyd George announced in the house of Commons on Friday that the Allies were proceeding to enforce peace terms independently of America. Early in the debate the policy of the Allies had been criticized. They were charged with being too hasty and with not waiting for the co-operation of America. That was strongly repudiated by Mr. Lloyd George.

"To have taken advantage of the political deadlock in America," the premier said, "in order to administer peace terms in a manner which might have been objectionable to America was never contemplated for a moment by the allied powers. We waited too long for America to take its full share of responsibilities. Delay has caused all the trouble. Turkey is irritated by it—happily the army of occupation in Constantinople is re-establishing order—while it cannot be denied that the present trouble in Germany is mainly the outcome of a lack of unity in the ranks of the Allies."

The premier denied that there was still a desire to crush Germany. If the present scale of reparations were modified France, though victorious, would be called upon to pay more per head of population than would Germany towards nullifying her war debt. Therefore it was not revenge they were seeking, but justice. They were finding this difficult to enforce without the co-operation of America.

America has asked the Allies to protect Armenians. "That we are quite willing to do," said Mr. Lloyd George, "but how? We would rather the Armenians protected themselves. They could easily raise an army of, say, 40,000 men, and every allied nation would be only too willing to equip their army and, if necessary, officer it for them."

"That is the only way I can suggest. As for establishing their independence, that is very difficult, because in most districts where they reside they are in a distinct minority."

Proceeding, Mr. Lloyd George said the Allies had been accused of retarding Germany's reconstruction by withholding credit. The premier asked, in amazement, "How can a nation in the throes of revolution expect to obtain credit? And if there is starvation in Austria it is their own fault. They were the aggressors in the war."

AH, THESE POOR FEET OF OURS, HOW THEY DO BOTHER US.

Anyone who wishes something novel in footwear, even if it is not nobby, may have opportunity soon to give play to his or her fancy.

Dutch manufacturers, learning of the high prices in the United States, are sending salesmen to this country to introduce wooden shoes to the American trade.

The outlook would not seem to be promising from a style basis, if no other, but the wooden shoe, clumsy and queer as it is, would be better for the human foot than the average shoe the American wears.

In the war period the examiners found comparatively few men with perfectly sound feet. The vast majority suffered from corns, bunions, flat feet, fallen arches or some other pedal defect or injury. The army shoe comes nearer being a good shoe and a sensible shoe says a friend at our elbow, than the shoes the American males have been accustomed to buy.

High heels, pointed toes, narrow lasts and other things demanded by "style" have distorted the foot of the American woman and done much injury to her—more, in fact, than many women know.

Present high prices for leather shoes may make a market for the wooden shoe among farmers, laborers and others who have not been in this country long and who knew the sabot abroad, but not outside that group, it would appear.

"THE KING IS DEAD"—LONG MAY HE STAY SO.

Maximilian Harden, speaking in Berlin, gives it as his opinion that "the outside world must prepare itself to deal with a modified Soviet Government in Germany." The readiness with which the Ebert Government yielded to the demands, both as to personnel and policy, of the extremists bears out this diagnosis. They were as unyielding as marble to the military leaders; but they have been compromising with the Spartacists ever since they felt their feet once more on the ground. They are reported to have surrendered completely, so far as policy goes, in the Ruhr Valley. Clearly they have a dread of the power of the proletariat which they never once felt for that of the Imperialists. Harden may have played the Vicar of Bray very adroitly through the various changes in German fortunes. He has certainly accomplished a long journey from the kennels of Bismarck to his present role of barking in advance of a Teuton Bolshevik. But this very chameleon quality of Harden gives him a unique value as an index to the conditions really existing at any time. And his word on the situation today is that it is so far from being "militarist" that it has swung away to the opposite extreme and become Soviet.

EVER HIGHER.
WE ALL are after higher wages, the old time stipends won't suffice; and even clergymen and sages rear up and say they've raised the price. The price is multiplied by seven, though nothing has increased in worth; it costs us more to go to heaven, it costs us more to stay on earth. Today I met a sad-eyed father, whose first born just arrived on deck; he said, "It is a beastly bother—it's left my bank account a wreck. The doctor soaked me good and plenty, though he just came and skipped away; the nurse, a dame of three times twenty, demands five sesterces a day. This offspring graft is vain and giddy, it leaves me with two arctic feet; how shall I feed that little kiddie, when he is old enough to eat?" And then I met the village sexton; he said he'd dug a grave for Jones; "It was a bargain, but the next 'un will cost the buyer two more bones." The price of everything is humming, each day it makes a record new; the blamed thing gets us when we're coming, it gets us when we're going, too.

EVERYDAY ETIQUETTE

"Would you kindly tell me if it is proper to send a marriage announcement to a member of a family who is the particular friend of the party

send one announcement to the parents be sent to the family in general?" asked Rose.

"Under such circumstances, I would send one announcement to the parents jointly and one to each of the adult sons and daughters. It is good form nowadays to address, 'Mr. and Mrs. Blank and family,' when there are sons and daughters old enough to receive social considerations," suggested the aunt.

"If I drop in upon a woman who is receiving her friends, in response to her 'at home' card, do I leave one of my cards?" asked Marie.

"You, as a guest, leave one of your cards upon a table as you go out, unless there is an attendant holding a tray or card salver in her hand, waiting to receive your card," replied her mother.

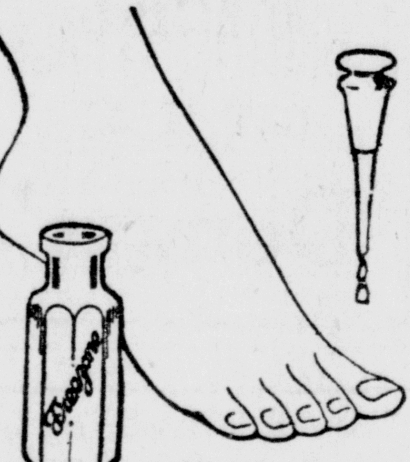

"If a young lady accepts an invitation from a young gentleman to attend a dance, is it proper to say good night at the door?" asked Kate.

"As the hour is late it is proper to say good night at the door," said her sister.

"Is it proper to give a young lady a gift at Easter?" asked Jim.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Says Nothing Like Plain Argo-Phosphate to Put on Firm, Solid, Stay There Flesh and Muscle and Increase Strength, Vim, Vigor and Nerve Force.

Physicians claim there is nothing that will increase weight, strength and endurance like organic phosphate commonly known by druggists as argo-phosphate; it is inexpensive and is sold by all leading druggists everywhere under a guarantee to give satisfaction or money refunded. Weakness and thinness are usually due to starved nervous conditions.

Our bodies need more phosphates than are contained in the foods we eat.

If you wish a more rounded figure and plump well-developed arms, neck and bust in place of hollows you should simply take plain argo-phosphate as it builds up and restores run-down nervous conditions by phosphatizing the system. It transforms the appearance and an increase in weight is often times quickly produced.

The increase in weight also aids in improving the general health. Sleeplessness, nervousness, lack of energy and ambition quickly disappear.

Paie cheeks are changed to rosy ones and dull eyes become bright.

Miss Lena Brown of Atlanta, Ga., who weighed 90 pounds reports that she gained 10 pounds in two weeks time and says argo-phosphate has made a different person of her and she has never felt better in her life.

SPECIAL NOTICE—Owing to the fact that so many physicians and druggists are recommending argo-phosphate for relieving all nervous, worn-out debilitated conditions and the usually large sale for argo-phosphate there will be found in the market numerous substitutes for the genuine article. All imitations are inferior preparations and owing to its unusual health producing qualities it should not be used by any one unless they reside to put on flesh and increase in weight. Dispensed by Sohn's Drug Store.

KEPT FAMILY AWAKE COUGHING UNTIL SHE FOUND THIS REMEDY

"I Have Had Pains in My Side Too. Had to Use Hot Water Bottle Very Often."

ONE DOSE OF HYPO-COD STOPPED IT SHE SAID

"I never saw anything do the work as quick before in my life. There I had been coughing and coughing every night until the wee hours of the morning keeping everybody in the house awake and having to get up often to apply a hotwater bottle to my side in which I had severe pains, and the very first dose of Earle's Hypo-Cod gave me relief. Just to think that I had been suffering night after night for days and weeks when a trip down to the drug store would have ended it all. I had it bad too, but since I've taken Earle's Hypo-Cod the tickling in my throat on laying down has gone and it has increased my appetite until I eat like a farmer. I have taken three bottles and every bit of the soreness is

gone from my side," declared Mrs. Hattie Green, 23 Sachs St., Dayton O.

This lady having lived in Dayton for six years is well known and her statement above may easily be verified. It simply shows how quickly one may rid themselves of such troubles and how foolish one is if they delay.

A cough or congestion of the lungs interferes with the oxidizing process and the blood becomes thin and weak. This explains why we always feel so sluggish and languid with a cold and why people with lung trouble grow so thin, pale and weak. Don't permit a cough or cold to cling a single day. It is dangerous.

With a cough syrup you can allay the irritation but what you want is quick relief from the cough and then a tonic to fortify yourself against more colds. Build yourself up now with Earle's Hypo-Cod.

Earle's Hypo-Cod is sold here by Sohn's Drug Store, (opposite court house) and the leading druggists in all nearby towns. Price \$1.25 plus 5c war tax.

Explains How to Kill Germs

Probably the best and quickest way to destroy the pernicious germs of influenza, which during an epidemic are everywhere present, is to breathe through nose and mouth deep into the lungs, air made antiseptic by a Scotch formula which druggists call Haelanol.

Haelanol mixes with the air you breathe and makes it powerfully antiseptic.

Because it is so very pleasant there are many ways to use it—pour a few drops on handkerchief and hold it to your nose several times a day as you breathe. A multitude of people breathe the vapor that arises after a few drops have been poured into a bowl of boiling water.

Many say the best way is to pour germ killing Haelanol on your pillow and while you sleep, breathe antiseptic air the whole night long—a little folder that comes with each bottle, tells of many clever ways to breathe Haelanol and destroys flu germs. Sohn's Drug Store dispenses it.

The situation has apparently resolved itself down to a question of just what is the will of the people of Xenia, in the matter, and whether they will get their wishes, granting their desires are definitely known.

The former, is apparently still an open question in the minds of the commission, despite the fact that the Gazette last week conducted a straw vote in an attempt to learn just what the people desired, which resulted in an overwhelming majority in favor of the daylight saving plan. Since this vote was carried out in all parts of Xenia, and since every one was urged to register an opinion either way, it is logical to suppose that the same proportion would have held true had everyone voted. This then must certainly be conclusive proof that the people of Xenia want daylight saving.

With this then as a basis, the new plan must surely be passed if the will of the people is taken into consideration, which has been the policy here in the past and will do doubt be in the future.

ALLIES PROCEED IN ENFORCING THE TREATY WITHOUT AMERICA.

Lloyd George announced in the house of Commons on Friday that the Allies were proceeding to enforce peace terms independently of America. Early in the debate the policy of the Allies had been criticized. They were charged with being too hasty and with not waiting for the co-operation of America. That was strongly repudiated by Mr. Lloyd George.

"To have taken advantage of the political deadlock in America," the premier said, "in order to administer peace terms in a manner which might have been objectionable to America was never contemplated for a moment by the allied powers. We waited too long for America to take its full share of responsibilities. Delay has caused all the trouble. Turkey is irritated by it—happily the army of occupation in Constantinople is re-establishing order—while it cannot be denied that the present trouble in Germany is mainly the outcome of a lack of unity in the ranks of the Allies."

The premier denied that there was still a desire to crush Germany. If the present scale of reparations were modified France, though victorious, would be called upon to pay more per head of population than would Germany towards nullifying her war debt. Therefore it was not revenge they were seeking, but justice. They were finding this difficult to enforce without the co-operation of America.

America has asked the Allies to protect Armenians. "That we are quite willing to do," said Mr. Lloyd George, "but how? We would rather the Armenians protected themselves. They could easily raise an army of, say, 40,000 men, and every allied nation would be only too willing to equip their army and, if necessary, officer it for them.

"That is the only way I can suggest. As for establishing their independence, that is very difficult, because in most districts where they reside they are in a distinct minority."

Proceeding, Mr. Lloyd George said the Allies had been accused of retarding Germany's reconstruction by withholding credit. The premier asked, in amazement, "How can a nation in the throes of revolution expect to obtain credit? And if there is starvation in Austria it is their own fault. They were the aggressors in the war.

AH, THESE POOR FEET OF OURS, HOW THEY DO BOTHER US.

Anyone who wishes something novel in footwear, even if it is not nobby, may have opportunity soon to give play to his or her fancy.

Dutch manufacturers, learning of the high prices in the United States, are sending salesmen to this country to introduce wooden shoes to the American trade.

The outlook would not seem to be promising from a style basis, if no other, but the wooden shoe, clumsy and queer as it is, would be better for the human foot than the average shoe the American wears.

In the war period the examiners found comparatively few men with perfectly sound feet. The vast majority suffered from corns, bunions, flat feet, fallen arches or some other pedal defect or injury. The army shoe comes nearer being a good shoe and a sensible shoe says a friend at our elbow, than the shoes the American males have been accustomed to buy.

High heels, pointed toes, narrow lasts and other things demanded by "style" have distorted the foot of the American woman and done much injury to her—more, in fact, than many women know.

Present high prices for leather shoes may make a market for the wooden shoe among farmers, laborers and others who have not been in this country long and who knew the sabot abroad, but not outside that group, it would appear.

"THE KING IS DEAD"—LONG MAY HE STAY SO.

Maximilian Harden, speaking in Berlin, gives it as his opinion that "the outside world must prepare itself to deal with a modified Soviet Government in Germany." The readiness with which the Ebert Government yielded to the demands, both as to personnel and policy, of the extremists bears out this diagnosis. They were as unyielding as marble to the military leaders; but they have been compromising with the Spartans ever since they felt their feet once more on the ground. They are reported to have surrendered completely, so far as policy goes, in the Ruhr Valley. Clearly they have a dread of the power of the proletariat which they never once felt for that of the Imperialists.

Harden may have played the Vicar of Bray very adroitly through the various changes in German fortunes. He has certainly accomplished a long journey from the kennels of Bismarck to his present role of barking in advance of a Teuton Bolshevik. But this very chameleon quality of Harden gives him a unique value as an index to the conditions really existing at any time. And his word on the situation today is that it is so far from being "militarist" that it has swung away to the opposite extreme and become Soviet.

EVER HIGHER.

WE ALL are after higher wages, the old time stipends won't suffice; and even clergymen and sages rear up and say they've raised the price. The price is multiplied by seven, though nothing has increased in worth; it costs us more to go to heaven, it costs us more to stay on earth. Today I met a dead-eyed father, whose first born just arrived on deck; he said, "It is a heady bother—it's left my bank account a wreck. The doctor soaked me good and plenty, though he just came and skipped away; the nurse, a dame of three times twenty, demands five sesterces a day. This offspring graft is vain and giddy, it leaves me with two arctic feet; how shall I feed that little kiddie, when he is old enough to eat?" And then I met the village sexton; he said he'd dug a grave for Jones; "It was a bargain, but the next 'un will cost the buyer two more bones." The price of everything is humming, each day it makes a record new; the blamed thing gets us when we're coming, it gets us when we're going, too.

EVERYDAY ETIQUETTE

"Would you kindly tell me if it is proper to send a marriage announcement to a member of a family who is the particular friend of the party

send one announcement to the parents be sent to the family in general?" asked Rose.

"Under such circumstances, I would send one announcement to the parents jointly and one to each of the adult sons and daughters. It is good form nowadays, to address, 'Mr. and Mrs. Blank and family,' when there are sons and daughters old enough to receive social considerations," suggested the aunt.

"If I drop in upon a woman who is receiving her friends, in response to her 'at home' card, do I leave one of my cards?" asked Marie.

"You, as a guest, leave one of your cards upon a table as you go out, unless there is an attendant holding a tray or card salver in her hand, waiting to receive your card," replied her mother.

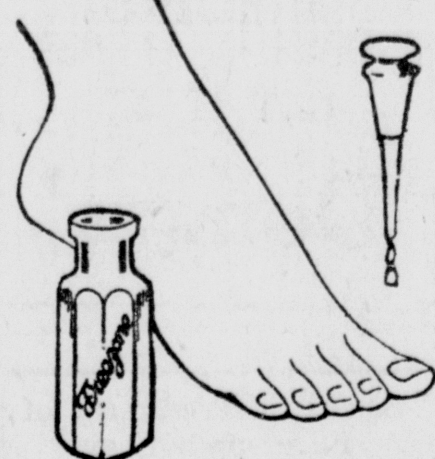

"If a young lady accepts an invitation from a young gentleman to attend a dance, is it proper to say good night at the door?" asked Kate.

"As the hour is late it is proper to say good night at the door," said her sister.

"Is it proper to give a young lady a gift at Easter?" asked Jim.

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Says Nothing Like Plain Argo-Phosphate to Put on Firm, Solid, Stay There Flesh and Muscle and Increase Strength, Vim, Vigor and Nerve Force.

Physicians claim there is nothing that will increase weight, strength and endurance like organic phosphate commonly known by druggists as argo-phosphate; it is inexpensive and is sold by all leading druggists everywhere under a guarantee to give satisfaction or money refunded. Weakness and thinness are usually due to starved nervous conditions.

Our bodies need more phosphates than are contained in the foods we eat.

If you wish a more rounded figure and plump well-developed arms, neck and bust in place of hollows you should simply take plain argo-phosphate as it builds up and restores run-down nervous conditions by phosphatizing the system. It transforms the appearance and an increase in weight is often times quickly produced.

The increase in weight also aids in improving the general health. Sleeplessness, nervousness, lack of energy, and ambition quickly disappear.

Pale cheeks are changed to rosy ones and dull eyes become bright.

Miss Lena Brown of Atlanta, Ga., who weighed 90 pounds reports that she gained 10 pounds in two weeks time and says argo-phosphate has made a different person of her and she has never felt better in her life.

SPECIAL NOTICE—Owing to the fact that so many physicians and druggists are recommending argo-phosphate for relieving all nervous, worn-out debilitated conditions and the usually large sale for argo-phosphate there will be found in the market numerous substitutes for the genuine article. All imitations are inferior preparations and owing to its unusual health producing qualities it should not be used by any one unless they reside to put on flesh and increase in weight. Dispensed by Sohn's Drug Store.

KEPT FAMILY AWAKE COUGHING UNTIL SHE FOUND THIS REMEDY

"I Have Had Pains in My Side Too. Had to Use Hot Water Bottle Very Often.

ONE DOSE OF HYPO-COD STOPPED IT SHE SAID

"I never saw anything do the work as quick before in my life. There I had been coughing and coughing every night until the wee hours of the morning keeping everybody in the house awake and having to get up often to apply a hotwater bottle to my side in which I had severe pains, and the very first dose of Earle's Hypo-Cod gave me relief. Just to think that I had been suffering night after night for days and weeks when a trip down to the drug store would have ended it all. I had it bad too, but since I've taken Earle's Hypo-Cod the tickling in my throat on laying down has gone and it has increased my appetite until I eat like a farmer. I have taken three bottles and every bit of the soreness is

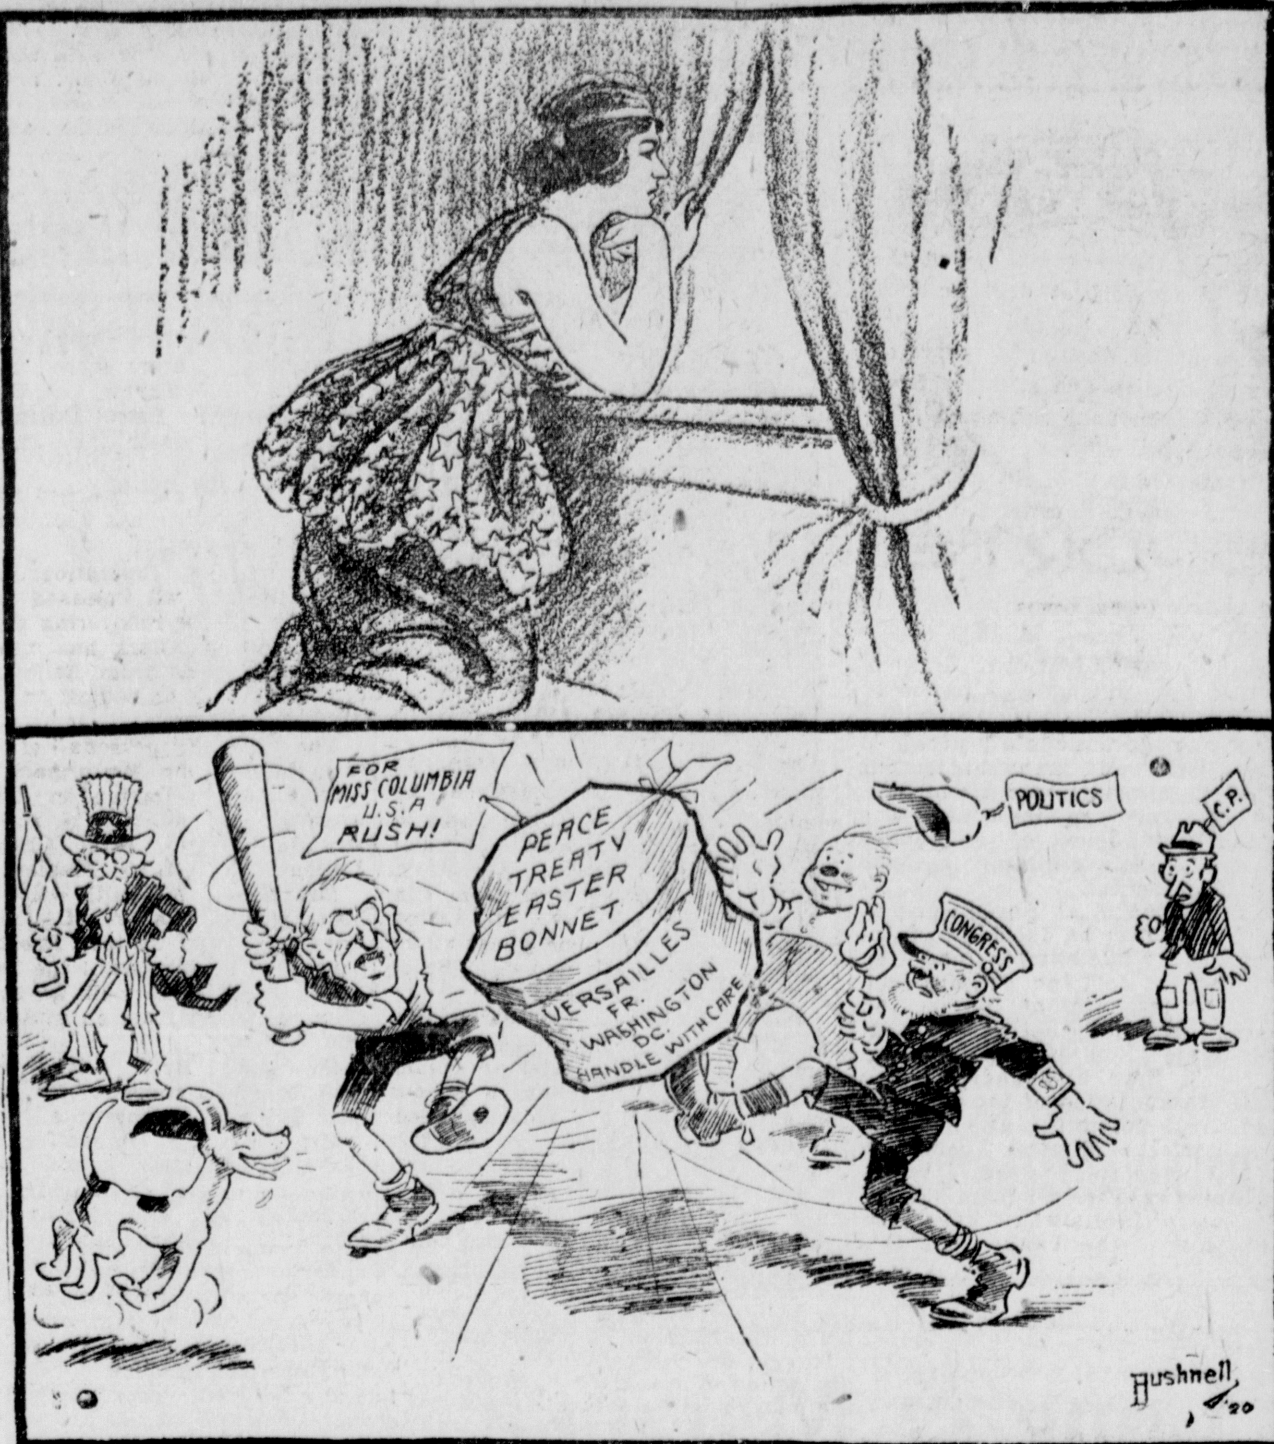

gone from my side," declared Mrs. Hattie Green, 23 Sachs St., Dayton, O. This lady having lived in Dayton for six years is well known and her statement above may easily be verified. It simply shows how quickly one may rid themselves of such troubles and how foolish one is if they delay.

A cough or congestion of the lungs interferes with the oxidizing process and the blood becomes thin and weak. This explains why we always feel so sluggish and languid with a cold and why people with lung trouble grow so thin, pale and weak. Don't permit a cough or cold to cling a single day. It is dangerous.

With a cough syrup you can allay the irritation but what you want is quick relief from the cough and then a tonic to fortify yourself against more colds. Build yourself up now with Earle's Hypo-Cod.

Earle's Hypo-Cod is sold here by Sohn's Drug Store, (opposite court house) and the leading druggists in all nearby towns. Price \$1.25 plus 5c war tax.

WOMEN NEED SWAMP-ROOT

Thousands of women have kidney and bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

Pains in the back, headache, loss of ambition, nervousness are often times symptoms of kidney trouble.

Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions.

Get a medium or large size bottle immediately from any drug store.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Gazette or Republican.

Duffy Lewis.

By NORMAN E. BROWN

Duffy Lewis, staid old veteran of world's series and many big league campaigns, almost kissed his big league career good-bye last winter. The dependable out-fielder of the Yankee crew is just getting himself in shape after his close call.

Lewis' home is at Boyes Springs, Cal. Last winter he decided to paint his garage. While climbing about on the ladder he fell and cut his arm. The paint fell, too, of course, and some of the paint penetrated the cut in his arm. Blood poisoning set in and for a time his condition was serious. Amputation of the arm was considered a possibility at one time. Lewis' perfect physical condition helped through and the arm is rapidly rounding into its old form again. The loss of Lewis would have been a sad blow to the Yanks. He is a friend and loved one. Those serv-

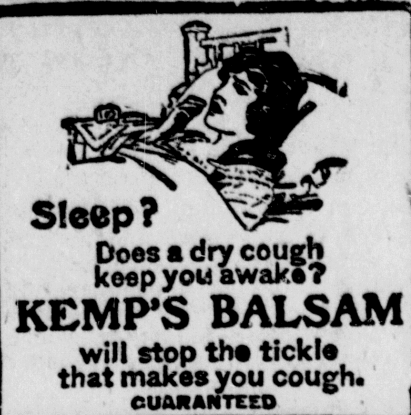

star fielder and a valuable unit on offense.

Lewis is a native of California. Was born in San Francisco April 18, 1888. He broke into pro ball with the Alameda team in the California State league in 1907 and the next year signed with Oakland in the Pacific Coast league. In 1910 the Red Sox scouts recommended Lewis as ready for the big show and the Red Sox grabbed him. He broke into the limelight almost immediately and is regarded as one of the best out-fielders in the game. He played a brilliant game with the Sox until the war came along. Then he joined the navy. Last year the Yanks obtained him along with Ernie Shore and Leonard for a squad of Yanks, including Walters and Gilhooley, and a wad of kale.

JAMESTOWN

On Sunday afternoon a large concourse of friends and relatives assembled at the late home of Sherman Jenks, for his funeral services, which was conducted by the Rev. C. L. Smith, a Baptist minister from Cincinnati. Mr. and Mrs. Charles Reed, who were guests at the home of her son-in-law, Bruce Leveck.

Miss Ruth, young daughter of Mr. and Mrs. Braden Smith, has returned home from Grant hospital at Columbus, where she underwent a serious cinnati. Mr. and Mrs. Charles Reed rendered softly two songs, "The Beautiful Isle of Somewhere," and "Saved by Grace." A wealth of fra-

ing as pall bearers were the five brothers, John, Taylor, Lee, Smith, Sol and a neighbor Urban Tobin. Interment was made in the Jamestown cemetery.

C. W. Sharp has returned from Columbus, where he has been employed for several months.

double mastoid operation, and has many friends all pleased to know that she is now recovering nicely.

Mrs. George Clark has moved her household goods from Bellevue, Ky., into the home she bought on Clemens Ave., Jamestown.

The following persons of Jamestown heard John McCormack at Memorial Hall at Dayton on Thursday evening, Mr. and Mrs. N. N. Hunter, Mrs. John David, Mrs. Charles H. Jenkins, Mrs. Harry Frazier.

Mrs. Lester A. Smith will be the hostess to the Ladies' Missionary Society of the United Presbyterian church on Friday, April the second.

Ben Bryan is very ill, never having fully recovered from an attack of the "flu."

Mr. and Mrs. Alfred Walthall have been the guests of Mr. and Mrs. Otto Prizer at Brookville.

Mrs. George B. Oldham, of Dayton, has been spending a few days in Jamestown with her daughter, Mrs. J. O. McDorman, and family, and her mother, Mrs. Clara Hatch.

Miss Jennie Ross, a former resident of Jamestown, passed away at the home of her brother, Ellis Ross, at Wilmington, a few days ago. The body was brought here and placed in the family lot in the Jamestown cemetery.

The following business men were in Cincinnati last week, L. S. Farquhar, Ralph Glass, U. F. Harper Jr., Q. McClain.

C. H. Jenkins, Jamestown grocer, went to Jasper county Illinois, last week to look after his farming interests there and was in a railroad wreck coming home, on the Pennsylvania lines. The spreading of a rail ditched two day coaches, and a serious accident was averted by the coaches being steel. Aside from a terrific shaking up no one was badly injured.

Mrs. Jesse Taylor is the guest of friends in Dayton and Columbus this week.

The Rev. W. M. Lorimer is the possessor of a new Hudson Six. The W. F. M. Society will meet

COMMISSION TO PASS ON PAVING OF CITY STREETS

Four ordinances providing for the second list of streets to be paved and sewers curbs and gutters to be laid, were read at the business meeting of the City Commission at the recess meeting Monday night.

One ordinance is determining to proceed with the construction of sewers in parts of Districts 1, 5 and 6. One is determining to proceed with paving, storm sewer, curb and gutters on Church street al al. One provided for the issue of bonds in the sum of \$12,000 to pay the city's cost of the proposed improvements and one provided for a bond issue in the sum of \$125,000 in anticipation of collection of assessments on these improvements. All were passed at once as emergency measures on their first reading.

A resolution was adopted by the Commission authorizing the City Manager to appoint inspectors for sewer and paving construction. The Manager was also authorized to place an order for a Ford machine to be used by the water works department.

Manager Riddle presented a copy for rules and regulations drawn up for the operation of the water works. The Commission decided to take this matter up at a special meeting when ample time can be given it, and for

with Mrs. Willis A. Cooper at the parsonage on Thursday afternoon, April first.

The different churches of Jamestown, will render an Easter program.

The musical given by the Girls Glee Club of Monmouth College, was a most delightful one. The reader was especially good. An appreciative audience gave them a warm welcome, and a neat sum was added to their treasury, and the college well advertised.

Link Lane, who had been ailing for the past year of a complication of diseases, passed away on Sunday at the home of his brother John, with whom he lived. He leaves one sister, Jennie Lane, and a son. Brief funeral services were held at the house on Tuesday afternoon by the Rev. Charles Moorman. Burial in the Jamestown cemetery.

SALMON IN PERIL COMPANIES BLAMED

Washington, March 30.—The big salmon packing companies were held responsible for the threatened ex-

tinuation of the Alaskan salmon fisheries by Maurice Leehey of Seattle, counsel of the Alaskan territorial shipping board, in testifying before the senate commerce committee on legislation designed to promote Alaskan shipping. The "big packers" through ownership of private boats, Mr. Leehey declared, have a financial advantage over the smaller ones, who use the regular boat lines, which are subject to legal requirements not imposed on the private lines. The big

packers also are more desirous of record productions that of safeguarding the supplies, he said.

Mrs. George B. Oldham, of Dayton, has been spending a few days in Jamestown with her daughter, Mrs. J. O. McDorman, and family, and her mother, Mrs. Clara Hatch.

Miss Jennie Ross, a former resident of Jamestown, passed away at the home of her brother, Ellis Ross, at Wilmington, a few days ago. The body was brought here and placed in the family lot in the Jamestown cemetery.

The following business men were in Cincinnati last week, L. S. Parquhar, Ralph Glass, U. F. Harper Jr., Q. McClain.

C. H. Jenkins, Jamestown grocer, went to Jasper county Illinois, last week to look after his farming interests there and was in a railroad wreck coming home, on the Pennsylvania lines. The spreading of a rail ditched two day coaches, and a serious accident was averted by the coaches being steel. Aside from a terrific shaking up no one was badly injured.

COMMISSION TO PASS ON PAVING OF CITY STREETS

Four ordinances providing for the second list of streets to be paved and sewers curbs and gutters to be laid, were read at the business meeting of the City Commission at the recess meeting Monday night.

One ordinance is determining to proceed with the construction of sewers in parts of Districts 1, 5 and 6. One is determining to proceed with paving, storm sewer, curb and gutters on Church street al. al. One provided for the issue of bonds in the sum of \$12,000 to pay the city's cost of the proposed improvements and one provided for a bond issue in the sum of \$125,000 in anticipation of collection of assessments on these improvements. All were passed at once as emergency measures on their first reading.

A resolution was adopted by the Commission authorizing the City Manager to appoint inspectors for sewer and paving construction. The Manager was also authorized to place an order for a Ford machine to be used by the water works department.

Manager Riddle presented a copy for rules and regulations drawn up for the operation of the water works. The Commission decided to take this matter up at a special meeting when ample time can be given it, and for

with Mrs. Willis A. Cooper at the parsonage on Thursday afternoon, April first.

The different churches of Jamestown, will render an Easter program.

The musical given by the Girls Glee Club of Monmouth College, was a most delightful one. The reader was especially good. An appreciative audience gave them a warm welcome, and a neat sum was added to their treasury, and the college well advertised.

Link Lane, who had been ailing for the past year of a complication of diseases, passed away on Sunday at the home of his brother John, with whom he lived. He leaves one sister, Jennie Lane, and a son. Brief funeral services were held at the house on Tuesday afternoon by the Rev. Charles Moorman. Burial in the Jamestown cemetery.

SALMON IN PERIL COMPANIES BLAMED

Washington, March 30.—The big salmon packing companies were held responsible for the threatened extinction of the Alaskan salmon fisheries by Maurice Leehy of Seattle, counsel of the Alaskan territorial shipping board, in testifying before the senate commerce committee on legislation designed to promote Alaskan shipping. The "big packers," through ownership of private boats, Mr. Leehy declared, have a financial advantage over the smaller ones, who use the regular boat lines, which are subject to legal requirements not imposed on the private lines. The big

packers also are more desirous of record productions that of safeguarding the supplies, he said.

CRITICISE NAVY FOR FAILURE TO PROVIDE SUBS

Insufficient Ships Were On Hand To Cope With Enemy.

Washington, March 30.—The navy department was criticized today for not having sufficient submarines to cope with German u-boats when the United States entered the war.

Rear Admiral A. W. Grant, formerly in charge of the navy's submarine activities, told a sub-committee of the senate naval affairs committee that "it took two years to convince the navy department that it should construct submarines equal to the German u-boats."

Senator Keyes, Republican, of New Hampshire, asked "if we had any submarines fit for service when we entered the war."

"No we did not," Grant replied. He said he began making recommendations in 1915 but "received no support from the navy department." The policy pursued, Grant said, resulted not only in lack of "subs" but also in lack of trained personnel.

Later Grant said the submarines could not be properly kept in condition owing to poor preparations for repair work. "The department never attempted to design its own submarines," Grant said and described how the department went on purchasing ordinary "subs."

"The purchase of old type submarines was a step backward which I protested against," Grant continued.

He said that before the war he met opposition from the general board when he submitted his plans.

COMMITTEE URGES UNSEATING OF N. Y. SOCIALIST MEMBERS

Albany, March 30.—Unseating of the suspended Socialist members of the assembly was recommended in a report to be submitted today to the assembly by the judiciary committee which investigated the charges of disloyalty against the Socialists.

This decision was reached at an executive session of the committee late last night.

The majority report will be signed by seven of the 13 members.

Five members of the committee have signed a minority report declaring that the Socialists should be returned to their seats.

Another member will recommend expulsion of August Claessens, Louis Waldman and Charles Solomon and the seating of Samuel Orr and Samuel A. Dewitt.

DISPUTE OVER OIL LANDS CALLS FORTH GOVERNMENT AID

Washington, March 30.—With Texas holding troops and armed guards on one side of the Red river and Oklahoma preparing to defend its claims to rich oil lands by force if necessary, Solicitor General King on behalf of the government today asked the supreme court for an injunction against both Texas and Oklahoma and a receiver to take temporary possession of lands in and along the Red river boundary between the states which are claimed by each state. The attorney general of Texas consented to the injunction and receiver for all lands except those deeded to and held by private owners. On a statement by the solicitor general that the case was urgent and immediate action necessary, Chief Justice White announced that the supreme court would consider at once the papers presented.

Bad Sickness Caused by Acid-Stomach

If people only realized the health-destroying power of an acid-stomach—of the many kinds of sickness and misery it causes—of the liver it literally wrecks—they would guard against it as carefully as they do against a deadly plague. You know in an instant the first symptoms of acid-stomach—pains of indigestion; distressing, painful bloating; sour, gassy stomach; belching; food repeating; heartburn, etc. Whenever your stomach feels this way you should lose no time in putting it to rights. If you don't, serious consequences are almost sure to follow, such as intestinal fermentation, auto-intoxication, impairment of the entire nervous system, headache, biliousness, cirrhosis of the liver, sometimes even catarrh of the stomach and intestinal ulcers and cancer. If you are not feeling right, see if it isn't acid-stomach that is the cause of your ill health. Take EATONIC, the wonderful modern stomach remedy. EATONIC Tablets quickly and surely relieve the pain, bloating, belching, and heartburn that indicate acid-stomach. Make the stomach strong, clean and sweet. FRENCH FINANCES IN SERIOUS WAY SAYS FRENCHMAN

Paris, March 30.—"The financial situation of France is serious," declared Frederick Francois-Marsal, speaking in the chamber of deputies today, "but France has seen worse and has made sacrifices infinitely more cruel than those that now are necessary."

Mr. Francois-Marsal said: "The daily expenditures of France was 41,000,000 francs in 1914, 68,000,000 francs in 1915, 82,000,000 francs in 1916, 14,000,000 francs in 1917, 127,000,000 francs in 1918 and 139,000,000 francs in 1919."

A member of the chamber remarked that the question of exchange was financially and economically vital to the country. In reply, M. Francois-Marsal declared the member should also have said it was an international question.

Should Have Been Greater Effort. M. Francois-Marsal, who is minister of finance, was speaking in connection with the vote for provisional appropriations for the coming quarter. He said he thought that, although it was impossible to ask much during the war in taxes from an invaded country, where such a great percentage of its men were mobilized, yet "a great effort might have been tried."

The deputies listened breathlessly as the minister dealt with the formidable figures giving the total expenses for 1920 at 50,052,000,000 francs, of which 22,000,000,000 were recoverable from Germany. This year's deficit is 8,000,000,000 francs. The treasury's disposable amount at the Bank of France was 700,000,000 francs.

Foreign treasuries are closed to us and we cannot consider the possibility of raising an important loan abroad," said M. Francois-Marsal. "Our expenses must be compressed to the utmost possible. No loans can be issued on any terms and no taxation collected if the taxpayer feels that he is throwing his money into a bottomless abyss. * * * Scandalous profits have been made, on which the treasury first and then justice must say the last word. The minister explained the high cost of living by the inflation of paper money, the Bank of France's advance and the issue of national defense bonds. He said that as France multiplied in the face of continued decreased production, the purchasing power of the franc diminished.

"Here we are, in tip-top shape"

— Chesterfield

AND that's the way that Chesterfields always reach you—firm, fresh and in prime shape for smoking with all of their flavor and freshness intact.

Because Chesterfields are wrapped first in paper, then in tin foil, again in paper and then finally sealed in an air-tight, glassine paper wrapper.*

It's this last and extra wrapping that prevents Chesterfields from ever becoming too moist or too dry.

Like the fine Turkish and Domestic tobaccos in Chesterfields—like the can't-be-copied "satisfy" blend, this special wrapping is another proof of Chesterfield's better quality and greater value.

Liggett & Myers Tobacco Co.

*That extra wrapper, mind you, is the thing that keeps the flavor in.

One Duty You Owe Your House

The Things You Can Learn in a Paint Store.

To begin with, you can learn the vital necessity of paint. The sureness that without it your property goes slowly to pieces under your very nose.

Then you can learn the lesson of good paint—among several of which we prefer to sell and recommend

MARIETTA
PRACTICAL
PAINTS

Here's the lesson: The price you pay over the counter for paint is not half so important as the kind of paint you get for your money.

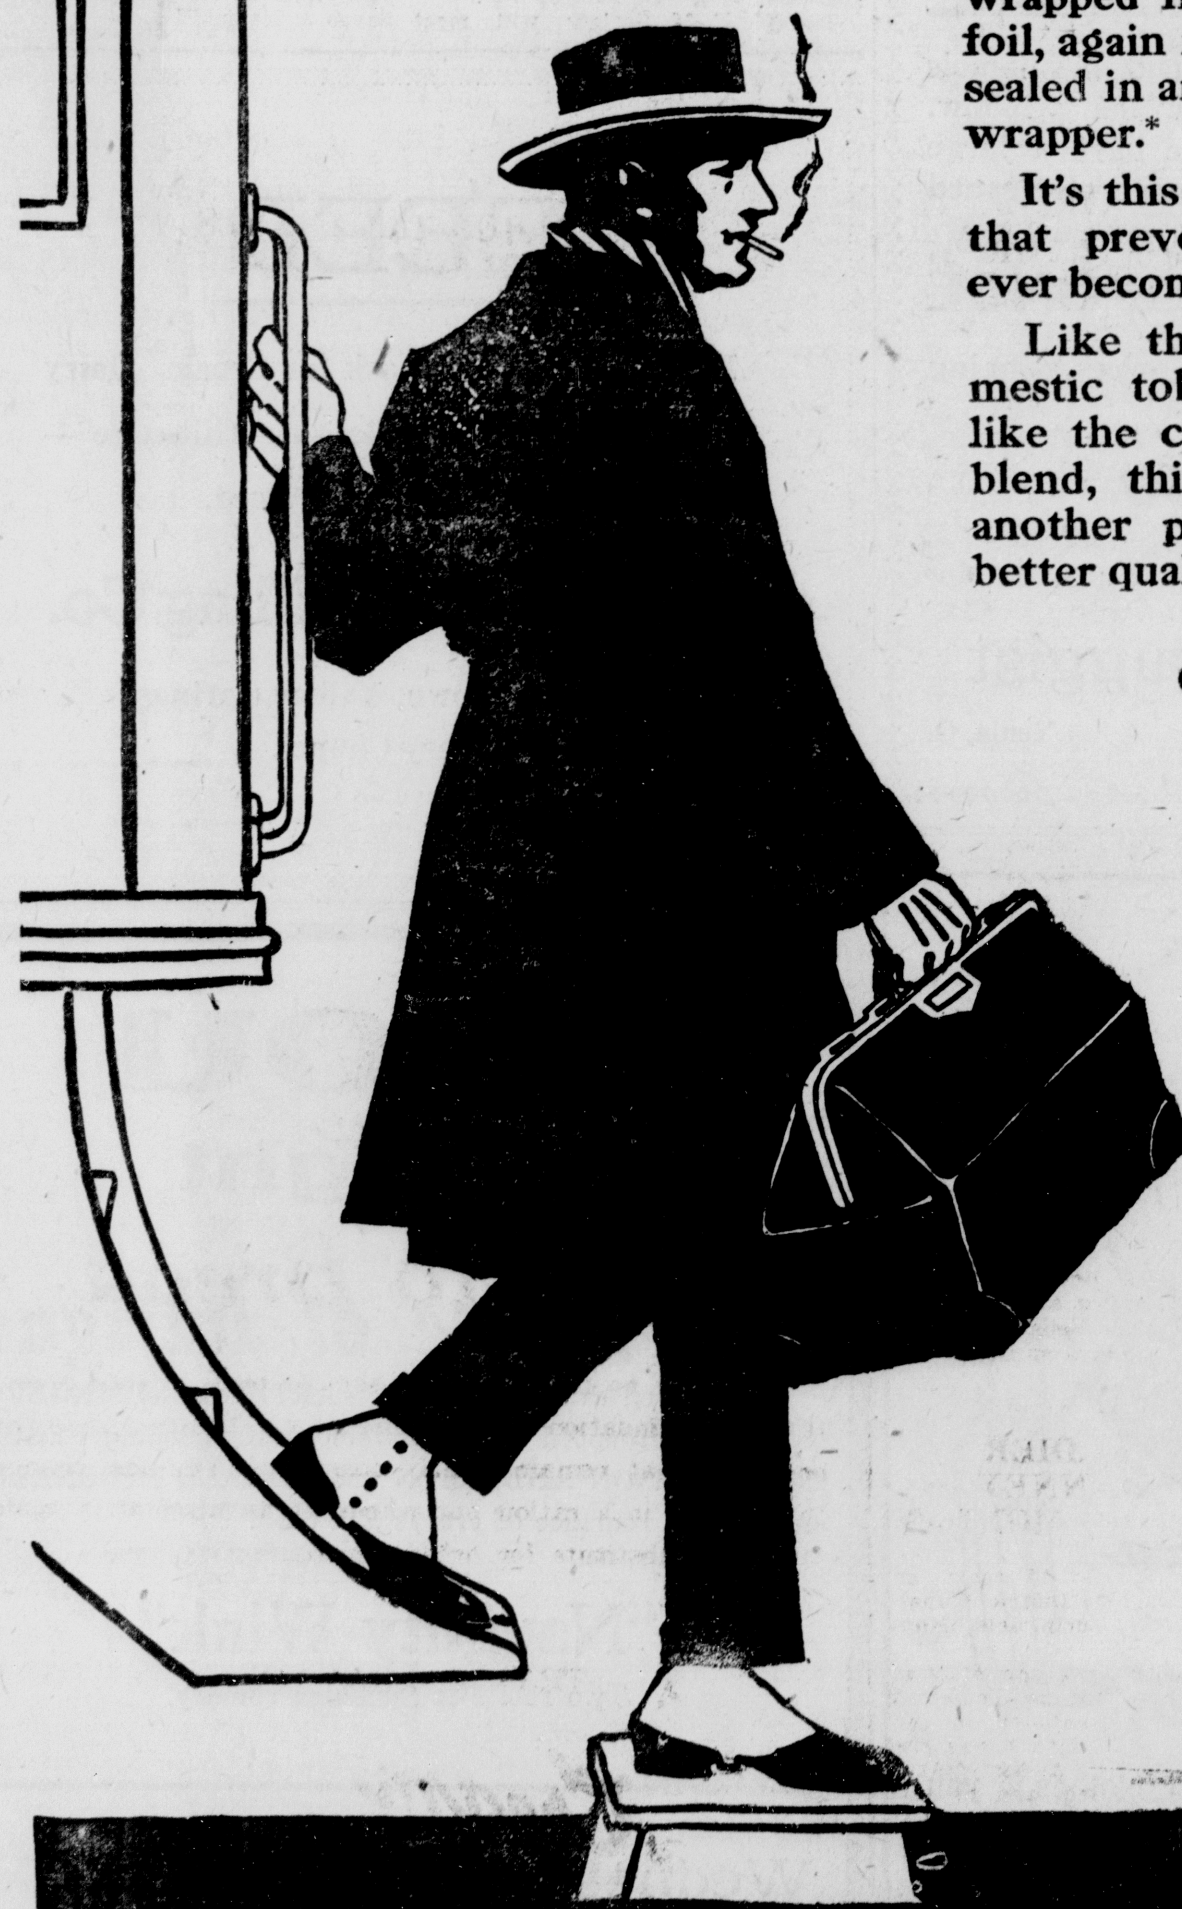

Poor paint at any price is a waste of labor—and labor is the biggest item of cost in painting.

So what you want most in paint, regardless of price is stamina—STAYING QUALITY.

It is true that the cost of painting has gone up—and with it has gone up the cost of not painting, to say nothing of the cost of using poor paint.

Let's talk this over face to face. Today?

BEAUTY CHATS

Helen Bertha—A harmless way to make the hair a shade lighter would be to use henna shampoo. The formula for this is frequently given.

Blonde and Curious—Warts should be removed by a doctor. There is no special name for the type of girl you refer to who has brown hair and either blue or grey eyes. She is neither blonde nor brunette.

Miss Irish—An excellent exercise to develop the legs and thighs is the following—Stand on one foot on a hassock or small stool, swing the other foot back and forth in a small arc about 16 times end up by swinging the leg as far back and as far forward as possible. Repeat with the other foot. If your arms are muscular but thin and you want to make them fatter, you would find that making the whole body fatter would also round out the arms.

B. B.—There is no reason why you should wear a corset if you do not want to; except in the case of very fat women, corsets are of no practical use at all. You are young and slender, and if you are getting a great deal of exercise you are probably building up a strong and healthy body.

LETTERS.

As long as you hold yourself straight, you do not need corsets.

G. H. B. Directions for face treatments appear frequently in this space. You probably should use the black head cleaning powder to rid your skin of what you have described as flesh worms.

Kitten—Blackheads are congestions of matter in the pores of the skin which cause the pores to become large and which, by combining with the dirt in the atmosphere, acquire a black tip or head. Hence the name.

Rose—If you will give your hands the following treatment you will notice a decided improvement in a month or six weeks. Make what are called cosmetic gloves by turning an old, loose pair of leather gloves inside out, and coating the lining with warm cocoa butter or flesh building cream. Scrub your hands with hot water and castile soap and rinse in hot water. Dry, and put on the cosmetic gloves at once, turning them back so that their lining is against the hot skin of the hand. Wear these all night. If you do this every night for awhile it will make a wonderful difference.

J. B.—There is no method I know of to reduce thick lips.

Heart and Home Problems

Dear Mrs. Thompson: I am a boy of fourteen years and I am only in the sixth grade. I started school when I was eight years old and could not speak a word of English. I went to school up to the sixth grade and we moved to a different state where my father had some business of his own and I had to attend to it for two years. So I missed all that time, but am back again.

It isn't pleasant to be in the sixth grade when my friend who started with me is way ahead. Shall I keep on going to school or not?

T. E. P. Bury your pride and get an education. I can understand that it is humiliating to be behind your friend, but it was not your fault that you dropped back in this way. Years later you will amount to a great deal more if you are educated than if you stop school now. Besides this, education teaches appreciation. Every year at school helps a great deal in adding to enjoyment and appreciation in life.

Dear Mrs. Thompson: I am a girl of sixteen. I admire a young gentleman who is my age as a "school beau." But he seems to be very bashful. Even on the street he will barely speak when I address him. I am not sure that he cares for me, and is there a way I can find out?

Do you really think he is bashful, or is he unwilling to speak? If it is bashfulness, can I break him of it? While visiting Florida last summer he wrote me some very nice letters which almost convinced me he had outgrown his bashfulness, but on his return I found I had been mistaken, for he was as bad or worse. I am positive the blame cannot fall on me.

TORCHY. Many boys of sixteen are ashamed to like or be interested in girls.

Doubtless this is what troubles your friend more than bashfulness. If I were you I would not pursue him. Speak on the street if you want to, but do not try to start conversations. In a year or two he may show interest in you again.

Bashfulness disappears with experience. As the boy grows older, if he is bashful, he will gain in self-confidence and will overcome the failing himself. It is not your place to help him in this matter.

Dear Mrs. Thompson: I am a married woman thirty years old. A certain married man who is very dear to my husband as well as myself gave me a beautiful diamond ring. My husband insists that I wear the ring, as does the man's wife, who has diamonds galore. Do you think it would be proper for me to wear the ring? Since I have no diamonds, would it be bad form to wear it on the engagement finger?

B. I. The circumstance you mention is most unusual. I think you should accept the gift since your husband and the other man's wife wants you to wear it. It would be in better taste not to wear it on your engagement finger. The corresponding finger of the right hand would be more suitable.

Dear Mrs. Thompson: I am a girl thirteen years old. I have hair that reaches below my waistline and could you suggest some ways to fit it? I have been wearing it in a braid down my back. A LITTLE FAIRY.

A very nice way to do your hair would be with a ribbon bow tying it back from your forehead and a hair-rette to catch it together at the neck in the back. Such hair as you have ought to be pretty if it is well kept. A hundred strokes with the brush every night and a washing once a month at least will keep it in good order.

FORMER SOLDIER ELI McKINNEY DIES ON MONDAY

Eli McKinney, aged 28 years, an ex-soldier, died at the District Tuberculosis hospital in Springfield, Monday morning.

The young man is a son of Mrs. Mary J. McKinney of 28 Trumbull street, Xenia. He enlisted in the national guard in 1915, and was given his discharge in August, 1917. Tuberculosis developed, and he has been a patient at the district hospital since last July. Besides his mother he leaves a brother, Ernest S. McKinney of Oregonia. He was a member of the West End church, where funeral services will take place Wednesday at 1 p. m.

FILES SUIT FOR \$100,000 DAMAGES

Declaring the defendant published false and malicious statements attacking his character, M. P. Knudsen, manager of the Sunlight Creameries of Washington C. H., has brought suit for damages in the sum of \$100,000 against the J. A. Long Creamery Co., of Union City, Ind.

The action alleging criminal libel and slander, follows a previous suit filed by Knudsen to have receivers appointed for the J. A. Long Company. Knudsen is former manager of the J. A. Long Company. The second action was filed in the District court.

Dr. Wm. Hints, a representative for colleges in the interest of the life service department of the Board of Home Missions of the Methodist church, will speak Wednesday night at the First Methodist church especially in the interest of young people.

The Pastor will preach tonight on "A Society Tragedy." Thursday night, the Holy Communion will be administered, commemorative of its institution the night before the crucifixion. All preparatory members who are to be received Easter Sunday are urged to attend this service. All preparatory members will meet the Pastor Thursday and Friday nights at seven o'clock.

WITH THE WOMEN OF TODAY

By Edith Moriarty

WITH THE WOMEN OF TODAY Mrs. Mary Roberts Rinehart, the well known authoress has just been elected to membership in the national executive committee of the National Security League. She is the third woman to sit in that body. The only other woman at the present time is Miss Maude Wetmore of New York city, who was head of the National League for Women's Service during the war and is now active in the women's section of the National Civic Federation.

Mrs. Rinehart has been interested in the National Security League's Americanism and anti-bolshevism efforts for some time. In a recent contribution to the league's educational propaganda, she said, "Radicalism in its present form is simply an attempt to impose the will of a militant minority on an unsuspecting majority."

SUFFRAGE NEWS. Vermont—If the Vermont legislature were called it would accept the woman suffrage amendment, according to sentiment about the state house. Governor Percival W. Clement, however, is emphatically opposed to an extra session on any pretext and has not changed his mind, since he replied negatively several weeks ago to the resolution of the Republican state committee asking him to call one.

URGES PEOPLE TO FIGHT CATARRH
WITH SIMPLE HOME MADE REMEDY

Can Make Pint at Home and Costs Little, Says Leading Druggist of Covington, Ky., Who Has Made Special Study of Catarrh.

Says: Inflamed Nostrils Invite Influenza

People who say that catarrh is a disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, inflamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of influenza, but many other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy made of Mentholized Arceine mixed with enough boiled water to make a full pint, half of the catarrh in this country would be abolished. It's really no joke for people

who don't know about this simple recipe to be constantly sniffing and snuffling, blowing and hawking, when all these obnoxious symptoms as well as the foul discharge can be made to disappear in a few days.

Ask for three-quarters of an ounce of Mentholized Arceine—that's all you need and after you have mixed it with enough boiled water to make a pint gargle the throat twice daily and sniff or spray some up the nostrils, as directed.

The tender nostrils will soon lose their soreness, heal up, and be clean and healthy.

Important Reminder: Just as soon as anyone in the family gets a cold in the head, check it at once with this same medicine.

Andre Honnorat, minister of education, has issued instructions that women candidates be admitted on the same terms as men at these examinations, which open the way to professorships in the higher educational institutions.

FEET IN BEST SHAPE
DURING YEAR 1917

Washington, March 30.—The active fleet on the first of April, 1917 "was in the best state of preparedness that it had ever been in," Admiral T. Mayo of the general board of the navy said today.

Appearing before a senate investigating sub committees, Mayo took issue with Admiral Sims on the letters charging "that we entered the war unprepared."

The general question of preparedness should be considered for several years before we entered the war, Mayo said.

He pointed out that from 1913 to 1915 the Mexican and Central American conditions made demands on our ships which made any general training and repair program impracticable.

From 1915 up to our entry into the war, Admiral Mayo showed that our navy made every effort to keep fit. Admiral Mayo assumed second in command of the Atlantic fleet in 1915.

In 1915 Mayo said there was general feeling that training should be intensified and no effort spared to get the ships ready for war.

As a result of these efforts, he said "the improvement in general efficiency was very gratifying."

MAYNARD IN TROUBLE

Asheville, N. C., March 30.—North Carolina mud has proven the Waterloo of Lieutenant B. W. Maynard, the "flying parson." Forced by a low gas supply to make a landing on Saturday at Morganton, forty miles from here, Lieutenant Maynard has since been unable to move his machine out of the mud.

XENIA BOY WINS
HONORS AT SCHOOL

Herman Harner of near this city, who is now enrolled in the School of Journalism at Columbus University,

has been winning honors as a wrestler, according to word received by his parents, Mr. and Mrs. James H. Harner of the Lower Bellbrook pike. Mr. Harner has been a member of the Columbia University wrestling team all winter and has won a gold medal and a bronze medal for his prowess on the mat. He won the James A. Kilroe medal by securing the only fall in the several wrestling contests conducted for that prize and lost but one match this year to his opponent at Cornell university. The local wrestler has been entered in the 115 pound class, the wrestling and training he has gone through in his initial showing, in making the school team and winning laurels over many other good wrestlers, is proof that he has considerable ability in this line of sport.

The Profit in High Prices

Five years ago this very paper you hold was worth about \$1.82 per hundred pounds, contract price. To-day it costs from \$4.50 to \$5.00 per hundred—an increase of about 270 per cent. Yet the demand is greater than the supply.

The paper in the latest novel you pick up was sold five years ago around 3 1/2 cents a pound. Today machine-finished paper of the same quality can be bought for 12 cents a pound—an increase of 283 per cent. Yet the demand continues to increase.

With few additions to the capacity of paper mills, the demand for book paper has increased nearly fifty per cent since 1915.

No provision has been made to supply this great increase in tonnage. Such increased demand cannot be supplied overnight. Paper machines must be made to order, and orders placed today will be for delivery in not less than two years, at prices current at date of delivery.

These facts prove two things. First—both the demand for book

paper and the price of it have increased enormously, and show no signs of lessening. Second—existing mills are hardly able to supply the present demand, and new mills cannot be built overnight.

Given a business selling goods at high prices to supply an insatiable demand—without danger from new competitors—and what have you? A business that you would like to have money in.

Such is the desirable situation in which we find the Mead Fibre Company. Under expert management—with raw materials assured at low prices—with a ready sale for the finished product assured at high prices—and with net assets of over 300 per cent back of every share—the First Preferred stock of the Mead Fibre Company is unusually desirable.

Furthermore, the income from this stock is over 7 per cent. It is not subject to local taxes. Therefore, it earns more than twice the net yield of an investment paying 5 per cent interest, but subject to tax return on April 11th.

Price \$97.50 and accrued dividend per share.

GOOD CAKES AND PUDDINGS

Spice Cake—Cream good table-spoon each of lard substitute and egg, with one cup of brown sugar. Add one beaten egg and beat that in good, then add one small teaspoon each of cinnamon, cloves, allspice and a little nutmeg and one tablespoon cocoa, one-half cup raisins and about a handful of nut meats (a few little pieces of lemon peel and citron add to the flavor but can do without).

Now add one cup of sour milk with a teaspoon of soda in it, to the mixture. Beat this all in good before adding three cups of sifted flour with a pinch of salt and little baking powder.

Put in loaf tin. Have oven hot, but turn burner lower before putting cake in. Bake one-half hour.

By adding a little more flour to this recipe nice cookies may be made by dropping a tablespoon about two inches apart on greased pan.

Eggless Cake—One cup sugar, one-half cup molasses, one cup raisins cut in half, one teaspoon cinnamon, one-half teaspoon cloves, one-half cup shortening one cup hot water, one-half teaspoon soda.

al, Saturday.

Mr. and Mrs. W. H. Lamme of Middletown, spent a few hours with Mr. Lamme's brother and sister, Mr. and Mrs. Walter Morris, and his nephew and niece, DeWitte and Zeva Morris.

Fred Schwartz, of Piqua, was a visitor in the home of his brother-in-law and sister, Mr. and Mrs. Russell Nesbitt, and his brother C. F. Schwartz, Saturday.

"The Arizona Cowboy," drama, Tuesday and Wednesday night, April 6 and 7, 1920, by the Junior class of Bellbrook high school, at the Town Hall, promises to be, without exception the best show staged in the village for the past several years.

The talent has been carefully selected, and no pains will be spared in bringing each part-taker up to a high standard of perfection.

The old ball team, ex-champions of Greene county, will re-organize. Names of those who will play: W.

Can be made with sour milk instead of water. Nut meats instead of raisins are good.

Caramel Tapioca—One cup sugar, one pint milk, one-quarter cup granulated tapioca, one-half teaspoon salt, one egg, one-half teaspoon vanilla.

Scald the milk. Caramelize the sugar, and then add it to the hot milk. When the sugar is dissolved, add the tapioca. Cook in a double boiler until the tapioca is transparent; add the salt; stir in the egg carefully and cook until the egg thickens. Add the vanilla and turn into dishes for serving.

Cool. Serve with plain or whipped cream. Chopped nuts may be added to the dessert just before turning into dishes.

DISCOVERIES

When You Have a small washing, but a large washboiler, a much more convenient and practical utensil is a six-gallon lard can. It requires less water, less gas, less stove space, and is so much easier to handle and lift off the stove. There seems to be less steam, too. The can must be the kind with lid having the rim to fit inside the top of can, not outside, as many do.

To Mend Net Curtains—Never throw away net curtains because they are torn. Dip squares of net in cold starch, apply to the torn part on wrong side of curtain, and iron with hot iron. The net will blend with the original curtain in such a way that the tear cannot be seen.

Leather Dressing—Three ounces of turpentine and two ounces white wax dissolved over a slow fire; then add one ounce ivory black and one dram of indigo, well pulverized; mix together. When the wax and turpentine are dissolved add the ivory black and indigo; stir till cold. Apply thin, then wash afterward and you will have a beautiful polish. Keeps the leather soft. Excellent for leather auto tops.

A MODERN STORY OF HOME AND BUSINESS

GERRY HELPS

Chapter 90

I waited two days then visited Robert at the store. I purposely went rather early in the morning. I judged, and rightly, there would be fewer customers in then, and I could more easily form an opinion as to the display.

I had not told Robert I was coming. I wanted to surprise him at work. He was surprised when I walked up to him but he also looked pleased. I had taken great pains with my toilet. I did not intend that Robert should be ashamed of his wife on her first visit.

"Just look around a bit," he said to me in an undertone. Then: "Mr. Burch, my wife." I had not noticed the old gentleman until Robert introduced him.

"Mr. Burch was about 50 at that time, but he looked much older. His face wore a worried expression, and his feeble eyes were constantly roving about as if uneasy in their environment."

"Glad to meet you," he said in a stereotyped way, but the cordial grasp of his hand made me feel that he meant what he said.

"I told Mrs. Meredith to look around and then give us her ideas," Robert remarked to my utter surprise. I had not dreamed he had mentioned me to his employer.

"Your husband tells me you have always been a business woman, and have very good ideas along certain lines. I shall be glad if you will be perfectly frank in making any suggestions that occur to you. I shall not promise to adopt them, but

again I may." He smiled pleasantly, then moved away.

"How did you come to tell him, Robert?" I asked.

"Oh, I don't know. In our talk about making a good display—one that would attract customers—I mentioned that you had good taste, and that I was going to ask you to come down and look us over. I had no idea of telling you were a business woman, but he sort of wormed it out of me."

I felt more flattered perhaps than the occasion warranted. I saw immediately the kind of man Robert's employer was. He had wanted to do good business, had tried his best but had not kept up with modern methods, either in his buying or selling force, and his store was hopelessly old-timey in its appearance.

I studied the place thoroughly. Then I told Robert a few of the things I thought might be done at once to give more of a tone to the place.

"Well, can we fix it up?" It was Mr. Burch again.

"Of course! Robert will tell you a few of the things we have talked over. Then if you are willing to spend a little money for display cases, and will let Robert trim your windows, I think you will find it will look quite different."

Robert had shook his head when I spoke of him trimming the windows, but I stepped on his foot, and he kept still. Mr. Burch bade me a very pleasant good morning, and thanked me for coming down.

"As I said, I don't promise to do all you say, but I would like to know just what you and your husband de-

cide would be for the good of the business. I am sick of running behind."

When I reached home I sat down at once and drew a plan of the store. Then I drew in the new display cases I had in mind, and the location in which they should be placed. Then I drew the windows. And while the goods were fresh in my mind I trimmed them both, careful not to clutter them.

As I did this a new thought came to me. Perhaps if I could keep alive this awakened interest in the business in Robert, he would not think so much of Marion Hovey.

I said nothing to him until after dinner. Then I laid my plans before him.

"But I never trimmed a window in my life! Window trimmers get big pay—good ones."

"I know, and you are going to get that pay added to what you now get, or I miss my guess. You may not get as much as a man who trims for large houses, but you'll get it. I like that Mr. Burch. He's anxious and worried, but I believe he will be amenable and be glad to pay you what you make yourself worth to him."

Then I explained my idea to him, lastly the scheme of the windows. I would visit the store once or twice a week. Then I would draw the plans for trimming them, and he could carry it out, using the plans as a guide. He was delighted and talked so happily—even calling me a brick—that I found myself wondering why I hadn't thought of helping him before. Instead of trying to do so much myself.

To Be Continued

START CAMPAIGN FOR USE OF PHOSPHATES

A campaign for the use of acid phosphates on corn will be carried on in the county next week under the direction of The Greene County Farm Bureau. R. B. Dustman of the agricultural extension bureau will assist County Agent Ford S. Prince in the work. Meetings will be arranged for five nights in different parts of the county. The first one will take place Monday night in Beavercreek township, and the second in Bath township Tuesday night. The other meetings have not been arranged. Soils committee of the farm bureau will be seen, and asked to be ready for a demonstration of the effect of acid phosphates on corn, later in the season.

BREWING CONCERN ATTACK FEDERAL LAW IN COURT

Washington, March 30.—The St. Louis brewing association today filed a brief in the supreme court attacking

the constitutionality of the Volstead enforcement law, especially the clause fixing alcoholic contents of beverages at one half of one per cent in volume. The contest is an appeal from a decision of the Missouri federal district court sustaining the validity of the act.

SUPREME COURT CHANGES DATE OF MANY CASES

Washington, March 30.—The supreme court today changed from April 12 to April 19 all cases set for argument on the former date. Among the cases assigned for argument April 12 was the Ohio case testing the constitutionality of the Ohio referendum laws on the prohibition and suffrage amendments.

Caramel Tapioca—One cup sugar, one pint milk, one-quarter cup granulated tapioca, one-half teaspoon salt, one egg, one-half teaspoon vanilla.

Scald the milk. Caramelize the sugar, and then add it to the hot milk. When the sugar is dissolved, add the tapioca. Cook in a double boiler until the tapioca is transparent; add the salt; stir in the egg thickens. Add the vanilla and turn into dishes for serving.
Cool. Serve with plain or whipped cream. Chopped nuts may be added to the dessert just before turning into dishes.

DISCOVERIES

When You Have a small washing, but a large washbowl, a much more convenient and practical utensil is a six-gallon lard can. It requires less water, less gas, less stove space, and is so much easier to handle and lift off the stove. There seems to be less steam, too. The can must be the kind with lid having the rim to fit inside the top of can, not outside, as many do.

To Mend Net Curtains—Never throw away net curtains because they are torn. Dip squares of net in cold starch, apply to the torn part on wrong side of curtain, and iron with hot iron. The net will blend with the original curtain in such a way that the tear cannot be seen.

Leather Dressing—Three ounces of turpentine and two ounces white wax dissolved over a slow fire; then add one ounce ivory black and one dram of indigo well pulverized; mix together. When the wax and turpentine are dissolved add the ivory black and indigo; stir till cold. Apply thin, then wash afterward and you will have a beautiful polish. Keeps the leather soft. Excellent for leather auto tops.

A MODERN STORY OF HOME AND BUSINESS

GERRY HELPS

Chapter 90

I waited two days then visited Robert at the store. I purposely went rather early in the morning. I judged, and rightly, there would be fewer customers in then, and I could more easily form an opinion as to the display.

I had not told Robert I was coming. I wanted to surprise him at work. He was surprised when I walked up to him but he also looked pleased. I had taken great pains with my toilet. I did not intend that Robert should be ashamed of his wife on her first visit.

"Just look around a bit," he said to me in an undertone. Then: "Mr. Burch, my wife." I had not noticed the old gentleman until Robert introduced him.

"Mr. Burch was about 50 at that time, but he looked much older. His face wore a worried expression, and his restless eyes were constantly roving about as if uneasy in their environment.

"Glad to meet you," he said in a stereotyped way, but the cordial grasp of his hand made me feel that he meant what he said.

"I told Mrs. Meredith to look around and then give us her ideas," Robert remarked to my utter surprise. I had not dreamed he had mentioned me to his employer.

"Your husband tells me you have always been a business woman, and have very good ideas along certain lines. I shall be glad if you will be perfectly frank in making any suggestions that occur to you. I shall not promise to adopt them, but

again I may." He smiled pleasantly, then moved away.

"How did you come to tell him, Robert?" I asked.

"Oh, I don't know. In our talk about making a good display—one that would attract customers—I mentioned that you had good taste, and that I was going to ask you to come down and look us over. I had no idea of telling you were a business woman, but he sort of wormed it out of me."

I felt more flattered perhaps than the occasion warranted. I saw immediately the kind of man Robert's employer was. He had wanted to do good business, had tried his best but had not kept up with modern methods, either in his buying or selling force, and his store was hopelessly old-timey in its appearance.

I studied the place thoroughly. Then I told Robert a few of the things I thought might be done at once to give more of a tone to the place.

"Well, can we fix it up?" It was Mr. Burch again.

"Of course! Robert will tell you a few of the things we have talked over. Then if you are willing to spend a little money for display cases, and will let Robert trim your windows, I think you will find it will look quite different."

Robert had shook his head when I spoke of him trimming the windows, but I stepped on his foot, and he kept still. Mr. Burch bade me a very pleasant good morning, and thanked me for coming down.

"As I said, I don't promise to do all you say, but I would like to know just what you and your husband de-

cide would be for the good of the business. I am sick of running behind."

When I reached home I sat down at once and drew a plan of the store. Then I drew in the new display cases I had in mind, and the location in which they should be placed. Then I drew the windows. And while the goods were fresh in my mind I trimmed them both, careful not to clutter them.

As I did this a new thought came to me. Perhaps if I could keep alive this awakened interest in the business in Robert, he would not think so much of Marion Hovey.

I said nothing to him until after dinner. Then I laid my plans before him.

"But I never trimmed a window in my life! Window trimmers get big pay—good ones."

"I know, and you are going to get that pay added to what you now get, or I miss my guess. You may not get as much as a man who trims for large houses, but you'll get it. I like that Mr. Burch. He's anxious and worried, but I believe he will be amenable and be glad to pay you what you make yourself worth to him."

Then I explained my idea to him, lastly the scheme of the windows. I would visit the store once or twice a week. Then I would draw the plans for trimming them, and he could carry it out, using the plans as a guide. He was delighted and talked so happily—even calling me a brick—that I found myself wondering why I hadn't thought of helping him before, instead of trying to do so much myself.

START CAMPAIGN FOR USE OF PHOSPHATES

A campaign for the use of acid phosphates on corn will be carried on in the county next week under the direction of The Greene County Farm Bureau. R. B. Dustman of the agricultural extension bureau will assist

County Agent Ford S. Prince in the work. Meetings will be arranged for five nights in different parts of the county. The first one will take place Monday night in Beavercreek township, and the second in Bath township Tuesday night. The other meetings have not been arranged. Soils committee of the farm bureau will be seen, and asked to be ready for a demonstration of the effect of acid phosphates on corn, later in the season.
